Master of Regional Integration

The Master of Regional Integration is a 2-year fully online professional postgraduate programme offered by the University of Mauritius (UoM) in collaboration with COMESA.

The programme is 100% course work and is designed on an online platform. It is opened to students around the world, across different continents and across both COMESA and non-COMESA countries.

It targets government officials working in divisions dealing with trade, integration and cooperation issues. Students intending to work as trade officers, trade policy analysts, advisers, researchers, trade attachés, and private sector trade practitioners are encouraged to apply.
