

SADC HIV and AIDS Fund

*Increasing domestic funding
for a sustained response*

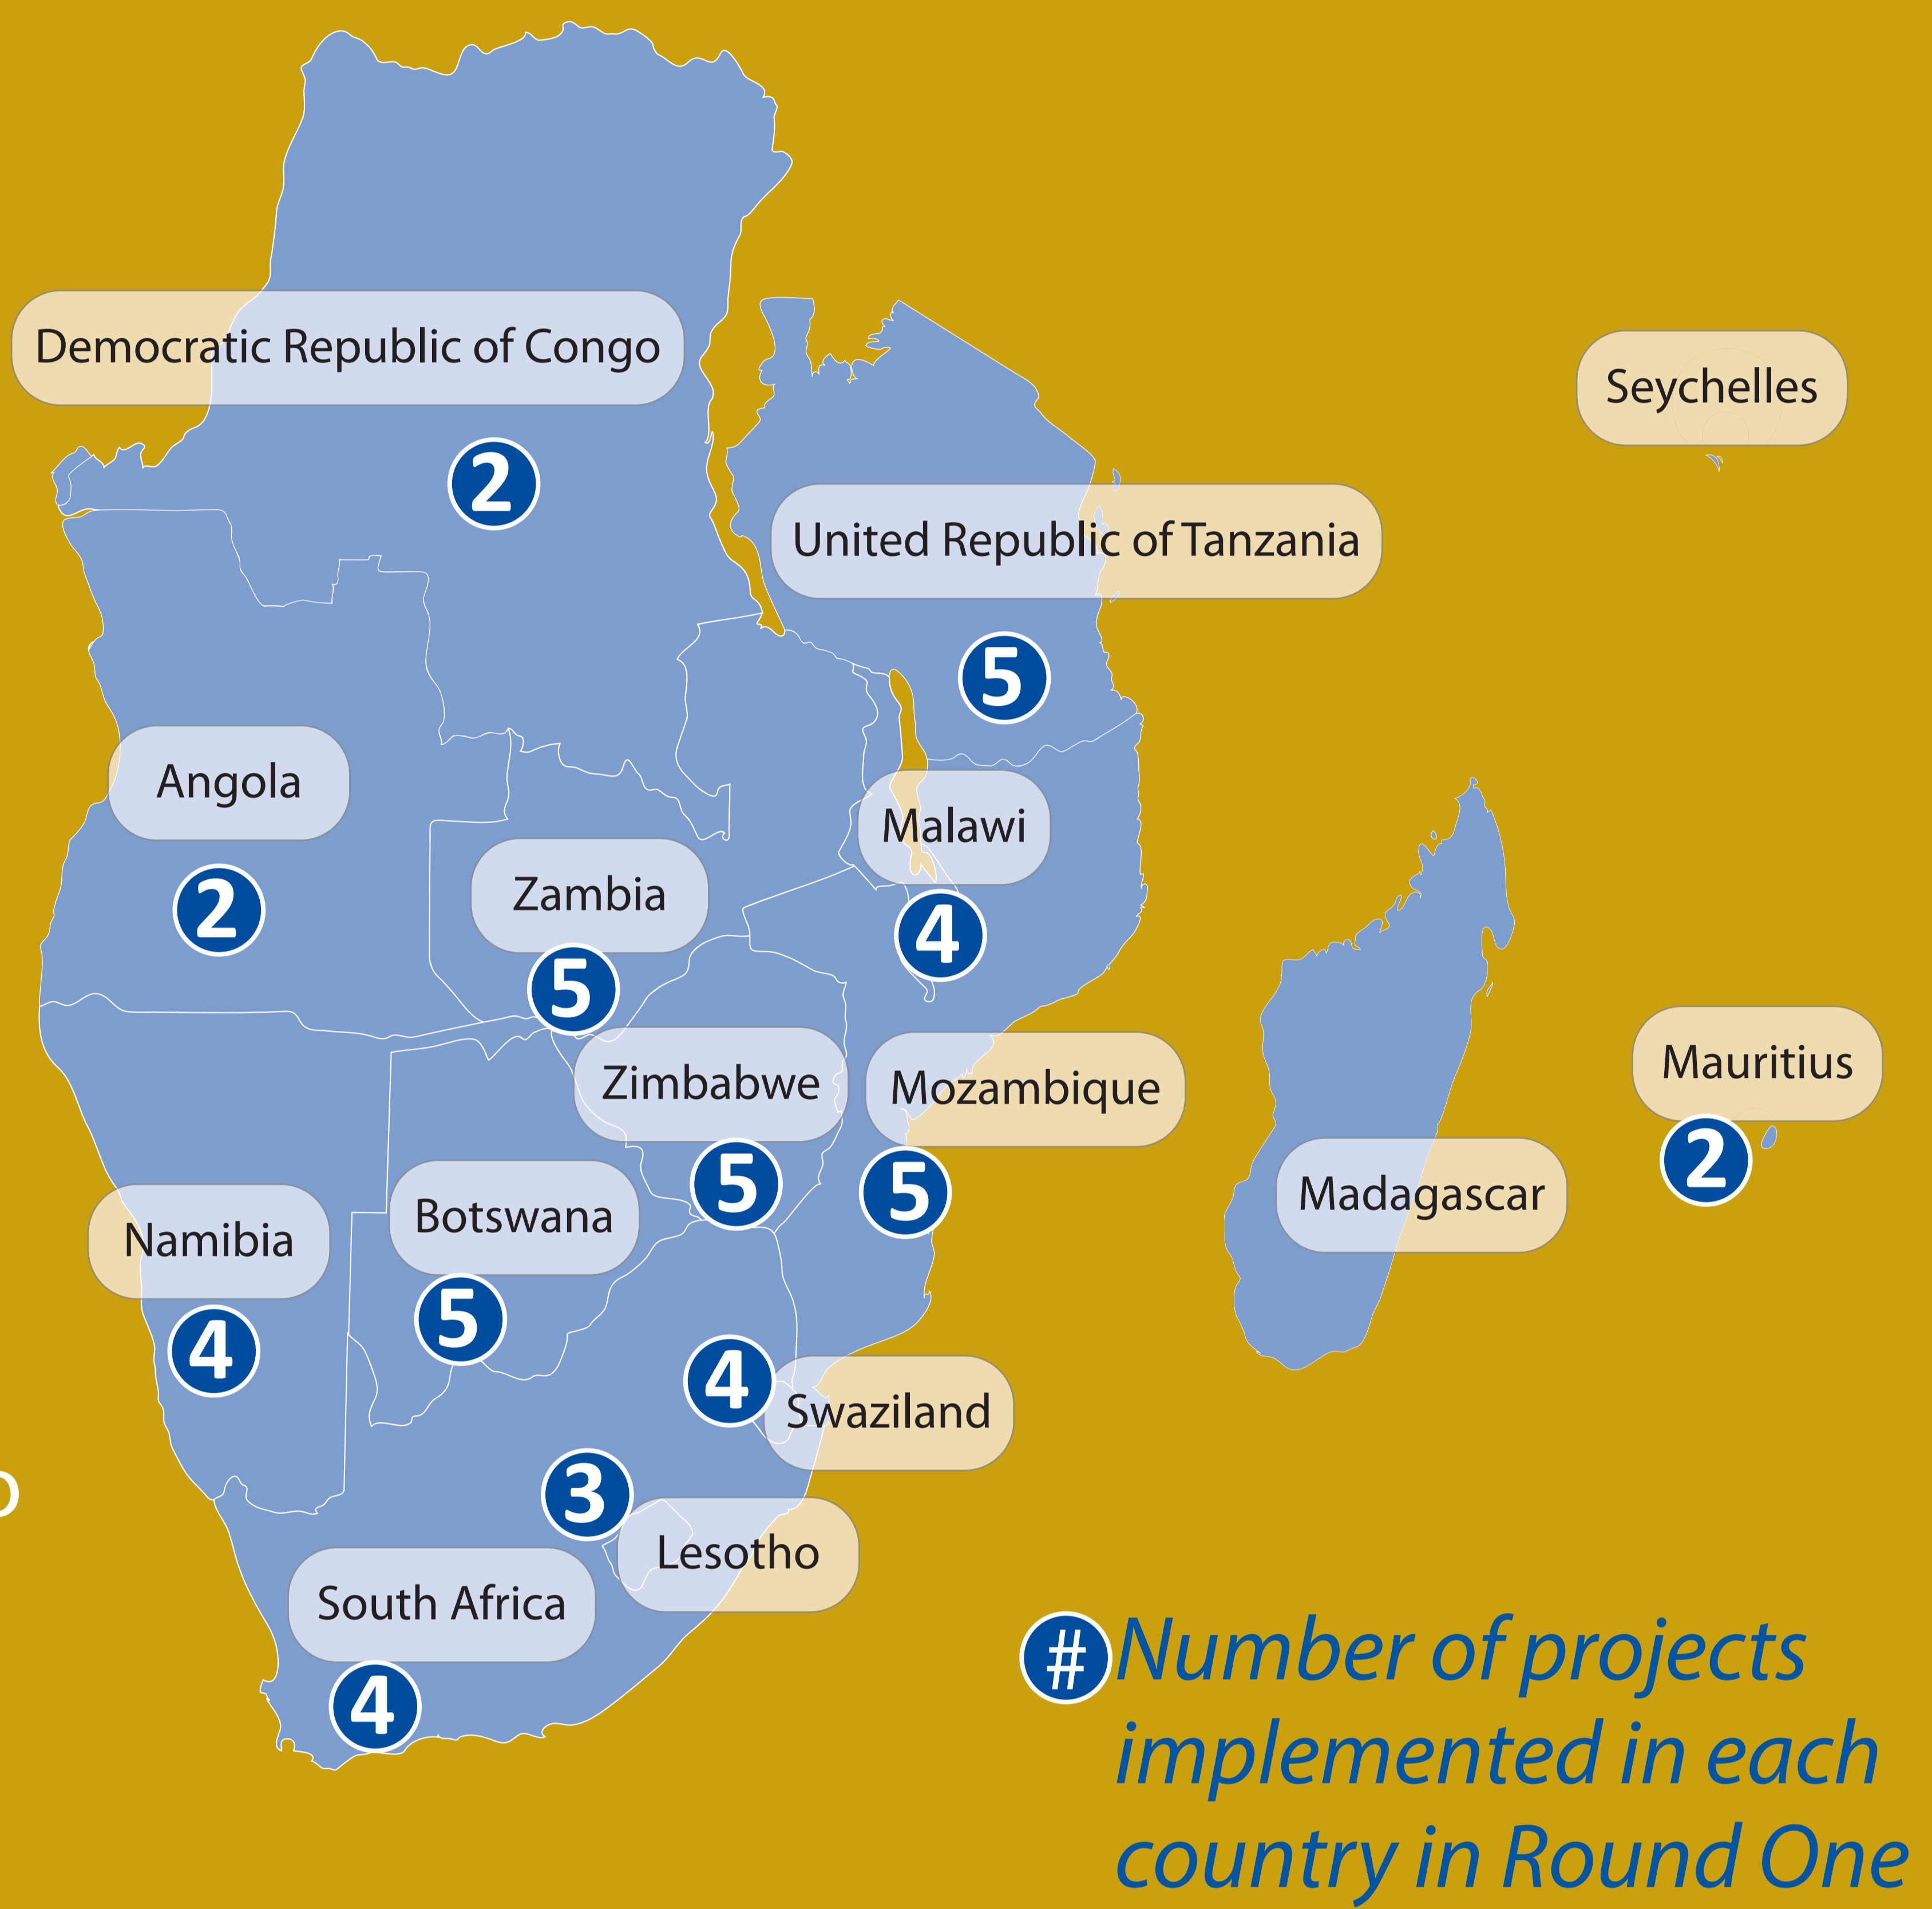

Purpose

To enhance the capacity, output, or impact of existing HIV and AIDS programmes in Member States. The SADC Secretariat coordinates the operationalisation of the Fund.

Achievements

Enhanced capacity to address HIV prevention and generated knowledge to inform the development of evidence-based policies and interventions:

- institutional capacity of 30 community-based organisations, with activities aligned to national priorities
- knowledge and debate of HIV prevention issues through community radio stations and discussions in six countries
- evidence on the psychosocial and sexual and reproductive health needs of adolescents aged 10 to 19 living with HIV to inform programming and policies
- knowledge on infant and young child feeding in the context of HIV among more than 12,000 mothers

Round One: July 2011– July 2014

12 projects funded across SADC Member States

Total budget: USD 6,206,286

Round Two: July 2014 – July 2016

10 projects to be funded across SADC Member States

Total budget: USD 3,990,201
