In pursuance of this policy, the SADC Secretariat:

4. Conflict of Interest

4.1 A bidder or a contractor shall not be allowed to get engaged in any procurement process for delivery of any kind of services, goods or works that would be in conflict with their prior or current obligations to other clients, or that may place them in the position of being unable to carry out the contract in the best interest of the Procuring Entity. Without limitation, bidders or contractors shall not be hired under the circumstances set forth below:

(a) Conflict between consulting activities and procurement of goods, works or services (consulting or general). A bidder or a contractor that has been engaged by the Procuring Entity to provide goods, works, or services for the
organization, and each of its affiliates, shall be disqualified from providing consulting services related to those goods, works or services. Conversely, a bidder or a contractor hired to provide consulting services for the preparation or implementation of a project, and each of its affiliates, shall be disqualified from subsequently providing goods, works or general services resulting from or directly related to the contractor’s consulting services for such preparation or implementation.

(b) Conflict among consulting assignments: Neither, bidders or contractors (including their personnel and sub-consultants) nor any of their affiliates shall be hired for any assignment that, by its nature, may be in conflict with another assignment of the bidder or contractor. For instance, a contractor assisting Procuring Entity to implement a project shall not be engaged to prepare an independent assessment for the implementation of the same project, or contractors hired to prepare Terms of Reference (TOR) for an assignment shall not be hired for the assignment in question.

(c) Relationship with Procuring Entity’s staff: bidders or contractors (including their personnel and sub-consultants) having business or family relationship with a member of the Procuring Entity’s staff directly or indirectly involved in any part of: (i) the preparation of the TOR or Technical Specification of a contract, (ii) the selection process for such contract, or (iii) the supervision of the contract, may not be awarded the contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Procuring Entity throughout the selection process and the execution of the contract.

5. Eligible Applicants

5.1 To foster competition, the SADC Secretariat permits all economic operators and individual consultants to be awarded a SADC Secretariat contract.

5.2 However, to ensure efficiency of the procurement processes, the Procuring Entity restricts the bidding process to only prequalified eligible economic operators and individual consultants.

5.3 All applicants and bidders must not be included in the conditions described below, constituting exclusion criteria:

a) they are being bankrupt or, are having their affairs administered by the courts, have entered into arrangements with creditors, have suspended business activities, are being subject of proceedings concerning those matters, or are being in any similar situations arising from a similar procedures provided for in the national legislation or regulations of the SADC member states;

b) they have been convicted of offences concerning their professional conduct by a judgment which has the force of res judicata; (i.e. against which no appeal is possible);

c) they have been declared guilty of grave professional misconduct proven by any means which Procuring Entity can justify;

d) they have not fulfilled obligations related to the payments of social security contributions or the payment of taxes in accordance with the legal provisions of the country in which they are established or with those countries where the contract is to be performed;

fraud, corruption, involvement in a criminal organisation or any other illegal activity detrimental to the Procuring Entity's financial interests; or

f) they are being currently subject to an administrative penalty.

5.5 The Procuring Entity will accept, as satisfactory evidence, that the applicant or the bidder is not in one of the above situations described in (a), (b) or (e), on submission of a recent extract from the judicial record, or failing that, a recent equivalent document issued by a judicial or administrative authority in the country of origin showing that those requirements are satisfied. The Procuring Entity will accept, as satisfactory evidence, that the applicant or bidder is not in the situation described in (d), on submission of a recent certificate issued by the competent authority of the State concerned. Where no such documents or certificates are issued in the concerned country, and for other cases of exclusion listed above, they may be replaced by a sworn / solemn statement (affidavit) made by the interested party in front of a judicial or administrative authority, a notary, or a qualified professional body in its country of origin or provenance.

5.6 The Procuring Entity takes into account that – as a rule – the exclusion criteria are related to the legal entity/ natural person acts acting as a bidder or applicant and not to the representatives in case of legal entities. However, depending on the legislation of the country where the bidder or applicant is legally established and if the Procuring Entity considers necessary or has reasonable doubts concerning the personal situation, the above documents may also relate to natural persons, including company directors or any person with power of representation, decision-making or control in relation to the bidder. Whenever an applicant or bidder, due to its nature (for instance, national public administrations and international organizations), cannot fall into one of the above categories and/or cannot provide the documents indicated above, a simple declaration explaining their situation will suffice.

Hence, the documentation proving that the applicant does not fall in any of the categories defined in the exclusion criteria, shall be submitted along with the application form for prequalification.

Applicants must, in addition, provide a statement confirming that their overall situation has not weaken in the period since the evidence was drawn up to the date they submitted the bid.

5.9 The above required documents shall be submitted by the applicant, and in case of a joint venture, by all joint venture members. The documents may be originals or copies. If the documents are copies, they shall be certified by a public notary. However, at the Procuring Entity request, the applicant or bidder must be able to provide any original document.

5.10 If sub-contractors are employed by the applicant or bidder, the same rules apply.
5.11 If the supporting documents are not written in English, an official and certified translation into English must be attached.

5.12 If so stated in the PDS, for contracts with a value less than the international threshold (US$ 350,000) and based on its risk assessment, the Procuring Entity may waive the obligation of submission of the documentary proof for exclusion criteria. However, when this obligation has been waived, the Procuring Entity shall still request a sworn / solemn statement issued by the interested party in front of a judicial or administrative authority, a notary or a qualified professional body from the applicant’s country. Nevertheless, the Procuring Entity – at its own criteria- keeps the right to request bidders' documents proving their compliance to the eligibility conditions.

5.13 Contracts may not be awarded to applicants or bidders who, during the procurement procedure:
   a) are subject to a conflict of interest;
   b) are guilty of misrepresentation when submitting the information required by the Procuring Entity as a condition of participation in the contract procedure, or fail to submit this information;

1. Description of the Contract Requirements

The overall objective of this Programme is to contribute to the implementation of the SADC regional integration agenda. Supporting the effective functioning of policy dialogues around key thematic issues of importance to the SADC regional integration agenda is considered central to achieving SADC’s objectives. It is expected that by achieving integration goals, the citizens of the SADC region will benefit from stronger, equitable and sustainable economic growth, increased collective leverage in global platforms and enhanced social opportunities. It is essential that not only the quality of regional policies developed (in the form of their benefits to the population of SADC), but more so their implementation, be improved.

The programme will strengthen the use of policy dialogues that are built on multi-stakeholder partnerships to generate evidence and make recommendations towards policy reform and effective implementation. This is in line with one of the recommendations by the Ministerial Retreat of March 2017 that responds primarily to the need for inclusive development and sustained dialogue. Furthermore, this is in line with SDG 17 which calls for the strengthening of the means of implementation and revitalisation of the global partnership for sustainable development.

While SADC as a Regional Economic Community regularly engages with peer institutions, such cooperation rarely considers experiences of other regional integration processes in the world. It is recognised that peer learning across different regional integration processes could contribute considerably to strengthening SADC’s capacity to identify solutions to its own regional integration challenges. While SADC can benefit from expertise in the European Union as both a Commission and individually as states or stakeholders in specific thematic areas, there are other experiences that could be drawn from other regions. On the Asian continent is the Association of South East Asian Nations (ASEAN). On the South American continent is the MERCOSUR for instance. On the African continent are the African Union (AU), the Economic Commission of West African States (ECOWAS), the Economic Community of Central African States (ECCAS), the Common Market for Eastern and Southern Africa (COMESA); the East African Community (EAC); Intergovernmental Authority on Development (IGAD) and others. This Project will support peer-to-peer exchanges between SADC and these and other regional bodies and their stakeholders for sharing of best practices in regional integration. Such exchanges could take many forms including policy dialogues, triangular cooperation, study tours, subject matter expert support, and other such formats.

It is envisaged that dialogues supported under this Project can be scaled up leading to sustainable and longer-term SADC capacities for regional integration through evidence-based and results-oriented policy development and implementation in the priority areas of the SADC Revised Regional Indicative Strategic Development Plan (RISDP) (2015 – 2020) and the Strategic Indicative Plan of the Organ (SIPO II) (2016 – 2020). It is also envisaged that these dialogues will
further strengthen cooperation in broader areas of common interest, including those of the Regional Indicative Programme (RIP), such as (among others) the effects of climate change, resilience, gender equality and youth empowerment; as well as increase capacities for research and innovation, economic diversification, job and wealth creation, institutional reforms and alignment of strategic priorities.

The Secretariat has established a need to engage a Consulting Firm to provide technical assistance to SADC Secretariat on the Dialogue Facility programme. The objectives of the contract are:

Specific Objective 1: Improve quality regional policy development and implementation of key SADC priorities;
Specific Objective 2: Strengthen stakeholder engagement and participation in the SADC regional integration process; and
Specific Objective 3: Leverage and promote partnerships outside SADC in terms of knowledge management, experience sharing, resource mobilisation and skills enhancement.

The expected outputs of the contract are:
Output 1.1: Strengthened evidence-based and results-oriented policy dialogue
Output 2.1: Regional integration deepened through cooperation and policy dialogue with stakeholders
Output 3.1: Strengthened inter-regional peer-to-peer dialogues to share best practices in regional integration
