Services.

(m) “Terms of Reference” (TOR) means the document included in the BD as Section 5 which explains the objectives, scope of work, activities, tasks to be performed, respective responsibilities of the Procuring Entity and the Contractor, and expected results and deliverables of the assignment.

1. Introduction

1.1 The Procuring Entity named in the Data Sheet will select a firm/eligible institution among those listed in the Letter of Invitation, in accordance with the procurement method indicated in the Data Sheet, method detailed in the edition of the Guidelines indicated in the Data Sheet.

1.2 The shortlisted Bidders are invited to submit a Technical Proposal and a Financial Proposal for global price services required for the assignment named in the Data Sheet and presented in details in the Terms of Reference attached as Section 5 of this Bidding Documents. The proposal and the Terms of Reference will be the basis for contract for a signed contract with the successful firm.

1.3 The assignment shall be implemented in accordance with the phasing indicated in the Data Sheet. When the assignment includes several phases, the performance of the Bidder under each phase must be to the Procuring Entity’s satisfaction before work begins on the next phase.

1.4 The Bidders must familiarize themselves with local conditions and take them into account in preparing their proposals. To obtain firsthand information on the assignment and on the local conditions, Bidders are encouraged to request the Procuring Entity to provide further information before submitting a proposal and to attend a pre-bid conference if one is specified in the Data Sheet. Attending the pre-proposal conference is optional. The Bidders’ representative should contact the Procuring Entity at the address stated in the Data Sheet or to obtain additional information on the pre-bid conference.

1.5 The Procuring Entity will provide the inputs specified in the Data Sheet, assist the firm in obtaining licenses and permits needed to carry out the services, and make available relevant project data and reports.

1.6 Please note that (i) the costs of preparing the proposal, including a visit to the Procuring Entity, are not reimbursable as a direct
cost of the assignment; and (ii) the Procuring Entity is not bound to accept any of the proposals submitted.

1.7 SADC Secretariat policy requires that Bidders provide professional, objective, and impartial advice and at all times hold the Procuring Entity’s interests paramount, without any consideration for future work, and strictly avoid conflicts with other assignments or their own corporate interests. Bidders shall not be hired for any assignment that would be in conflict with their prior or current obligations to other clients, or that may place them in a position of not being able to carry out the assignment in the best interest of the Procuring Entity.

1.7.1 Bidders will be excluded from the bidding process if it will be in a conflict of interest situation as described below:

(a) Conflict between consulting activities and procurement of goods, works or services. A bidder or a contractor that has been engaged by the SADC Secretariat or the Procuring Entity to provide goods, works, or services for the organization, and each of its affiliates, shall be disqualified from providing consulting services related to those goods, works or services. Conversely, a bidder or a contractor hired to provide services for the preparation or implementation of a project, and each of its affiliates shall be disqualified from subsequently providing goods, works or services resulting from or directly related to the contractor’s consulting services for such preparation or implementation.

(b) Conflict among consulting assignments: Neither, bidders or contractors (including their personnel and sub-Bidders) nor any of their affiliates shall be hired for any assignment that, by its nature, may be in conflict with another assignment of the bidder or contractor. For instance, a contractor assisting SADC Secretariat or the Procuring Entity to implement a project shall not be engaged to prepare an independent assessment for the implementation of the same project, or contractors hired to prepare Terms of Reference (TOR) for an assignment shall not be hired for the assignment in question.

(c) Relationship with SADC Secretariat’s or the Procuring Entity’s staff: bidders or contractors (including their personnel and sub-contractors) having business or family relationship with a member of the SADC Secretariat’s or the Procuring Entity’s staff directly or indirectly involved in
any part of: (i) the preparation of the TOR or Technical Specification of a contract, (ii) the selection process for such contract, or (iii) the supervision of the contract, may not be awarded the contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the SADC Secretariat throughout the selection process and the execution of the contract.

1.7.2 Since previous or ongoing participation in relation to the assignment by the Bidder, its professional staff, or its affiliates or associates under a contract with the SADC Secretariat and Procuring Entity may result in rejection of the proposal, the bidders should clarify their situation in that respect with the Procuring Entity before preparing the proposal.

1.7.3 Bidders may be hired for downstream work, when continuity is essential, in which case this possibility shall be indicated in the Data Sheet and the factors used for the selection of the Bidder should take the likelihood of continuation into account. It will be the exclusive decision of the Procuring Entity whether or not to have the downstream assignment carried out, and if it is carried out, which Bidder will be hired for the purpose.

1.8 It is the SADC Secretariat’s policy to require that Procuring Entity’s staff as well as Bidders under SADC Secretariat-financed contracts observe the highest standard of ethics during the selection and execution of such contracts. In pursuance of this policy, the SADC Secretariat:

valid after the submission date. During this period, the Bidder is expected to keep available the professional staff proposed for the assignment. The Procuring Entity will make its best effort to complete evaluation within this period. If the Procuring Entity wishes to extend the validity period of the proposals, the Bidders who do not agree have the right not to extend the validity of their proposals.

General

5.1 From the time the bids are opened to the time the contract is awarded, if any Bidder wishes to contact the Procuring Entity on any matter related to its proposal, it should do so in writing at the address indicated in the Data Sheet. Any effort by the firm to influence the Procuring Entity in the Procuring Entity’s proposal evaluation, proposal comparison or contract award decisions may result in the rejection of the Bidder’s proposal.

5.2 Evaluators of Technical Proposals shall have no access to the Financial Proposals until the technical evaluation, including any SADC Secretariat reviews, is concluded.

Public Opening and Evaluation of Technical Proposals: Scoring

5.3 The Procuring Entity shall conduct the bid opening in public at the address, date and time specified in the Data Sheet. Only the representatives of the bidders and the Evaluation Committee members are allowed to participate in public opening sessions. Any other interested person shall request, in writing, the SADC Secretariat’s permission to participate in a specific bid opening session.

5.4 The bid opening shall commence with the Chairperson the Evaluation Committee reading out the Bidders’ names and the time of arrival of the proposal. A registration number will be given to each proposal. All envelopes shall be opened one at a time, by the Chairperson of the Evaluation Committee, in order of their arrival.

5.5 At the opening, only the Technical Proposal envelope shall be opened immediately and checked for compliance with formal submission requirements by the evaluation committee. The Financial Proposal shall remain sealed and deposited in a safe place until all submitted proposals, of technically responsive bids, are opened publicly. In case the envelopes are not submitted separately the Bidder will be excluded.

5.6 No Bid shall be rejected at Bid opening except for late bids, in accordance with ITB Sub-Clause 4.5 and the other listed in the template for opening checklist (see in Annex to Services to SADC Guidelines for Procurement and Grants). Only envelopes that are opened and read out at Bid opening shall be considered further.

5.7 The Procuring Entity shall prepare the minutes of the Bid opening that shall include a brief description of the bid opening procedures and its finding as. The Bidders’ representatives who are present shall be requested to sign the attendance sheet. A
copy of the minute shall be distributed to all Bidders who submitted bids in time.

5.8 Once the Bid opening is concluded, the Evaluation Committee, as a whole, and each of its voting members individually, evaluates the proposals on the basis of their responsiveness to the Terms of Reference, applying the evaluation criteria, sub criteria (typically not more than three per criteria), and point system specified in the Data Sheet. Each responsive proposal will be given a technical score (St). A proposal shall be rejected at this stage if it does not respond to important aspects of the Terms of Reference or if it fails to achieve the minimum technical score indicated in the Data Sheet.

Public Opening and Evaluation of Financial Proposals: Ranking

5.9 After the evaluation of quality is completed, the Procuring Entity shall notify those Bidders whose proposals did not meet the minimum qualifying mark or were considered nonresponsive to the BD and Terms of Reference, indicating that their Financial Proposals will be returned unopened after completing the selection process. The Procuring Entity shall simultaneously notify the Bidders that have secured the minimum qualifying mark, indicating the date and time set for opening the Financial Proposals. The opening date shall not be sooner than two weeks after the notification date. The notification may be sent by registered letter, cable, telex, facsimile, or electronic mail.

5.10 The Financial Proposals shall be opened publicly in the presence of the Bidders’ representatives who choose to attend. The name of the Bidder, the technical scores, and the proposed prices shall be read aloud and recorded when the Financial Proposals are opened. The Procuring Entity shall prepare minutes of the public opening.

5.11 The evaluation committee will determine whether the Financial Proposals are complete (i.e., whether they have costed all items of the corresponding Technical Proposals; if not, the Procuring Entity will cost them and add their cost to the initial price), correct any computational errors, and determine if the total price is within the maximum budget available. The evaluation shall exclude those taxes, duties, fees, levies, and other charges imposed under the applicable law; and to be applied to foreign and non-permanent resident Bidders (and to be paid under the contract, unless the Bidder is exempted), and estimated as per paragraph 3.7. Should the Financial Proposal, after applying any correction or adjustments, exceeds the available budget for the assignment indicated at paragraph 3.9, this shall be
automatically disqualified.

5.12 Once corrections or adjustments have been applied, the Financial Proposal shall be adjusted with the Regional Preference. If so specified in the BDS, the Procuring Entity shall grant a margin of preference in the evaluation of bids from companies nationals from the SADC region when compared to bids from elsewhere. The margin of preference shall be calculated as a maximum fifteen percent (15%) discount to the evaluated total price. In case of a consortium, to qualify for the regional preference, the applicant must be from the region and the companies providing at least 50% of the services offered must be from the region.

5.13 The lowest Financial Proposal (Fm) will be given a financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the Data Sheet. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) indicated in the Data Sheet: 

\[ S = St \times T\% + Sf \times P\% \]

The firm achieving the highest combined technical and financial score will be awarded the contract.

6. Negotiations of Contract

6.1 The Contracting Authority, prior to award the contract, may enter into negotiation with the successful bidder in order to confirm the availability for the assignment, incorporation in the methodology of the aspects for which clarifications where requested during the evaluation and the modification of the schedule of mobilization of the team and submission of deliverables under the contract.

6.3 As far as possible, the negotiation shall be conducted in writing. Only on exceptional circumstances, the Contracting Authority and the successful shall meet for negotiations. In such case the meeting shall take place at the address indicated in the Bid Data Sheet.

6.5 The negotiations shall be recorded in a minute of the negotiations and be attached as annex to the contract.

BACKGROUND INFORMATION

Partner country and Procuring Entity

The procuring entity is Southern Africa Development Community (SADC)

Contracting authority

The contracting authority for this consultancy is Southern Africa Development Community (SADC).

Country background

The Southern African Development Community (SADC) was established as a development coordinating conference (SADCC) in 1980 and transformed into a development community in 1992. It is an inter-governmental organisation whose goal is to promote sustainable and equitable economic growth and socio-economic development through efficient productive systems, deeper co-operation and integration, good governance and durable peace and security among fifteen Southern African Member States.

Current situation in the sector

The SADC Treaty provides the overall structure and mandate for working towards regional integration of the region, whereas the revised Regional Indicative Strategic Development Plan (RISDP) 2015-2020 and the 2015 SADC Industrialisation Strategy and Roadmap 2015-2063 provide the framework for the trade and industrialization aspects.

The RISDP prioritises Industrial Development and Market Integration and places industrialisation at the centre of the regional integration agenda and seeks to front-load and accelerate industrialisation in the SADC region. The SADC Industrialisation Strategy and Roadmap 2015-2063 and the detailed and costed Action Plan for the Strategy seek to engender a major economic and technological transformation at the national and regional levels. It seeks to do so through the beneficiation and value addition of the region’s diverse resources, within the context of deeper regional integration. It further seeks to address the development challenges of the region by progressively moving from a factor-driven to an investment and efficiency-driven approach and ultimately to a high growth trajectory driven by knowledge, innovation and business sophistication. Furthermore, the Action Plan provides a breakdown of the key outputs and activities to be undertaken at both regional and national levels in line with the three overarching pillars of Industrialisation, Regional Integration and Competitiveness.

Industrialisation is the main instrument for structural transformation that will foster regional integration and hence make the SADC Member States competitive. Manufacturing value addition is key for catalysing regional value chains (RVCs) thereby graduating them into global value chains (GVCs). In order to adequately participate in RVCs the SADC Action Plan has identified potential priority value chains in the following areas

- Agro-processing
- Minerals beneficiation
- Pharmaceuticals
- Consumer goods
- Capital goods; and
- Services

In order to sustain industrialisation through value chains the Industrialisation Strategy Action Plan recognises the need to ring-fence the same by developing regional industrial clusters of the six value chains and SME sectors operating in the region. The regional industrial cluster framework will provide both real and conceptual structure intended to serve as a guide for the building of clusters with regional impact. This two-pronged approach is expected to yield the following outputs;

a. A well-developed industrial and/or technological clusters in the SADC

b. A well-developed SME sector capable of supplying high quality intermediate inputs and components to enterprises in domestic, regional and global value chains

Porter (2000) describes clusters as geographic concentrations of interconnected companies, specialised suppliers, service providers, firms in related industries and associated institutions (such as universities, standards agencies, trade associations) in a particular field that compete but also cooperate. Clusters are thus (regional) concentrations of businesses including their service providers along a particular value chain. In other words, clusters are networks of alliances between a large number of different actors in a (regional) production system. Successful clusters mostly involve a complementary mix of three kinds of businesses:

i. Internationally active companies which are particularly strong in the market and are technological leaders, (large firms)

ii. Suppliers or supplementary businesses (often small or medium sized enterprises – SMEs),

iii. Particularly innovative and dynamic knowledge-based specialists (e.g. research facilities, advanced training institutions, ICT specialists among others).

The SADC region does not have formally established regional industrial clusters although opportunities for such exist. More often than not cluster development is done at national level with minimal spill over effects for regional benefit. This section presents a brief of cluster developments at national level for the SADC Member States. The presentation is threefold namely cluster developments, national industrial policies and SME policies for the member states.
Most SADC Member States have developed clusters through special economic zones (SEZ) such as export processing zones (EPZ) and industrial and/or technological parks. SEZ is an area in a country that is subject to unique economic regulations that differ from other areas in the same country. The SEZ regulations tend to be conducive to private investment, usually FDI. SEZs are created to facilitate rapid economic growth by leveraging tax incentives to attract foreign currency and technological advancement. In the same vein, SEZ development can be used as a tool to promote regional development through backward (inputs and finance for production) and forward (markets) linkages. Specific cases of SEZ are EPZs and industrial parks. These are areas within a city or country that have been zoned by Government for industrial activities for export promotion and industrial as well as technological development, respectively.

On the other hand, many countries state their cluster development and promotion initiatives in the industrialisation policies. Clusters are viewed as one of the important vehicles to bring about industrialisation of a country. Clusters are pathways for triggering industrial transformation and are increasingly seen as a viable solution for economic growth and competitiveness in developed as well as developing countries. The concept therefore reviews the industrial policies to ascertain the extent in which industrial clustering is engendered at national level.

SME development and policies have a significant bearing on the performance of firms that are operating in clusters. This is due to the fact that SMEs are one of the sectors that either operate or provide backward or forward linkages with firms operating in clusters. All large corporations usually graduated from being an SME and the policies around SMEs are therefore relevant in determining the success and sustainability of industrial clusters.

**Related programmes and other donor activities**

It has been noted that all SADC Member States have strategies for promotion of industrialisation, clusters and SMEs in their development policies and programmes. As stated before, national industrial cluster development is an important platform and is a relevant prerequisite for development of regional policies to complement the national efforts. A review of cluster, industrialisation and SME policies of some of the SADC Member States identifies following in relation to regional cluster development.

**1.5.1. Clusters**

1. Cluster programmes/policies have specific sectors that are being promoted, ranging from agro-processing to mineral beneficiation

2. The objective of cluster development is to contribute towards national industrialisation with some linking them to regional integration

3. Specific objectives of cluster establishment and development include FDI attraction, technology and skills transfer, attain global competitiveness and value chains development.

4. Most clusters are delivered through special economic zones (SEZ) such as export processing zones (EPZ)
1.5.2 Industrialisation Policy

1. Manufacturing (agro-processing) and beneficiation are the identified sectors for national industrialisation.

2. There is a recognition that growth and development can be achieved through industrialisation that is private sector driven.

3. The role of Government in the industrialisation process is to provide public goods and create a conducive environment for the thriving of the private sector.

1.5.3 SME Policy

1. SMEs are recognised as a sector to be developed in order to contribute to employment and wealth creation.

2. Governments are willing to provide supports services such as skills development and transfers for the growth of SMEs.

3. SMEs are recognised as key sector for cluster development.

In light of the above, the Secretariat has decided to develop a regional framework and guidelines for industrial clusters that will assist in the promotion, development and management of a regional industrial clusters. The SISR 2015-63 has identified regional cluster development as one of the tools for industrialisation and regional integration of the SADC Member States. The regional industrial cluster framework will provide both real and conceptual structure intended to serve as a guide for the building of clusters with regional impact. The framework on clusters will assist the region in developing local master plans, recommend regional priorities, goals and actions, and eventually identify areas of potential regional collaboration and cooperation.

2. COMMENCEMENT, COMPLETION, MODIFICATION AND TERMINATION OF CONTRACT

2.1 Effectiveness of Contract

This Contract shall come into force and effect on the date (the “Effective Date”) of the Contracting Authority’s notice to the Contractor instructing the Contractor to begin carrying out the Services. This notice shall confirm that the effectiveness conditions, if any, listed in the SC have been met.

2.2 Termination of Contract for Failure to Become Effective

If this Contract has not become effective within such time period after the date of the Contract signed by the Parties as specified in the SC, either Party may, by not less than twenty one (21) days written notice to the other Party, declare this Contract to be null and void, and in the event of such a declaration by either Party, neither Party shall have any claim against the other Party with respect hereto.

The Contractor shall begin carrying out the Services not later than the number of days after the Effective Date specified in the SC.

2.4 Expiration of Contract

Unless terminated earlier pursuant to Clause GC 2.9 hereof, this Contract shall expire at the end of such time period after the Effective Date as specified in the SC.

2.5 Entire Agreement

This Contract contains all covenants, stipulations and provisions agreed by the Parties. No agent or representative of either Party has authority to make, and the Parties shall not be bound by or be liable for, any statement, representation, promise or agreement not set
2.6 Modifications, or Variations

2.6.1 Any modification or variation of the terms and conditions of this Contract, including any modification or variation of the scope of the Services, may only be made by written agreement between the Parties. Pursuant to Clause GC 7.2 hereof, however, each Party shall give due consideration to any proposals for modification or variation made by the other Party.

2.6.2 Substantial modifications to the contract, including modifications of the General or Special Conditions of the contract, changes in the scope or the duration of the contract, to the total contract amount and replacement of Key Experts, must be made by means of an addendum. If the request for an amendment comes from the Contractor, the latter must submit such a request to the Contracting Authority at least 30 days before the amendment is intended to enter into force, except in cases which are duly substantiated by the Contractor and accepted by the Contracting Authority.

2.6.3 However, where the amendment does not affect the basic purpose of the contract and, for a time based contract, the financial impact is limited to a transfer within the remuneration or between the remuneration and the provision for reimbursable expenses involving a variation of less than 15% of the original amount (or as modified by addendum) for the categories of expense where the money was taken from, the Task Manager shall have the power to order any variation to any part of the services necessary for the proper implementation of the tasks, without changing the object or scope of the contract. Such variations may include additions, omissions, substitutions, changes in quality, quantity, specified sequence, method or timing of performance of the services, changes in contact details and reporting requirements.

2.6.4 Prior to any administrative order for variation, the Task Manager shall notify the Contractor of the nature and form of such variation. As soon as possible, after receiving such notice, the Contractor shall submit to the Task Manager a written proposal containing:
(a) a description of the service to be performed or the measures to be taken and a programme for implementation of the tasks; and

(b) any necessary modifications to the programme of implementation of the tasks or to any of the Contractor's obligations under the contract; and

(c) For a time based contract, any adjustment to the contract value in accordance with the following principles:

1) where the task is of similar character and executed under similar conditions to an item priced in the budget breakdown the equivalent numbers of working days shall be valued at the fee rates contained therein;

2) where the task is not of a similar character or is not executed under similar conditions, the fee rates in the contract shall be applied to the estimated numbers of working days so far as is reasonable, failing which, a fair estimation shall be made by the Task Manager;

3) where a variation is necessitated by a default or breach of contract by the Contractor, any additional cost attributable to such variation shall be borne by the Contractor.

2.6.5. Following the receipt of the Contractor's proposal, the Task Manager shall decide as soon as possible whether or not the variation shall be carried out. If the Task Manager decides that the variation shall be carried out he/she shall issue the administrative order stating that the variation shall be carried out under the conditions given in the Contractor's proposal or as modified by the Task Manager in accordance with pursuant to Clause GC 2.6.4.

2.6.6. On receipt of the administrative order requesting the variation, the Contractor shall proceed to carry out the variation and be bound by these General Conditions in so doing as if such variation were stated in the contract.

2.6.7. No amendment shall be made retroactively except in cases which are duly substantiated by the Contractor and accepted
by the Contracting Authority.

2.6.8. Any change to the contract which has not been made in the form of an administrative order or an addendum or in accordance with this Clause shall be considered null and void.

Such guarantee (i) to remain effective until the advance payment has been fully set off, and (ii) to be in the form set forth in Appendix D hereto, or in such other form as the Contracting Authority shall have approved in writing. The advance payments will be set off by the Contracting Authority in equal instalments against the statements for the number of months of the Services specified in the SC until said advance payments have been fully set off.

(c) As soon as practicable and not later than fifteen (15) days

Only such portion of a statement that is not satisfactorily supported may be withheld from payment. Should any discrepancy be found to exist between actual payment and costs authorized to be incurred by the Contractor, the Contracting Authority may add or subtract the difference from any subsequent payments. Interest at the annual rate specified in the SC shall become payable as from the above due date on any amount due by, but not paid on, such due date.

The Contractor shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated. The Parties undertake to act in good faith with respect to each other’s rights under this Contract and to adopt all reasonable measures to ensure the realization of the objectives of this Contract.

7.2 Operation of the Contract
The Parties recognize that it is impractical in this Contract to provide for every contingency which may arise during the life of the Contract, and the Parties hereby agree that it is their intention that this Contract shall operate fairly as between them, and without detriment to the interest of either of them, and that, if during the term of this Contract either Party believes that this Contract is operating unfairly, the Parties will use their best efforts to agree on such action as may be necessary to remove the cause or causes of such unfairness, but no failure to agree on any action pursuant to this Clause shall give rise to a dispute subject to arbitration in accordance with Clause GC 8 hereof.

7.3 Non waiver

Should the financial guarantee cease to be valid and the Contractor fail to re-validate it, either a deduction equal to the amount of the pre-financing may be made by the Contracting Authority from future payments due to the Contractor under the contract, or the Contracting Authority shall give formal notice to the Contractor to provide a new guarantee on the same terms as the previous one. Should the Contractor fail to provide a new guarantee, the Contracting Authority may terminate the contract giving 30 days notice.

1. **Selection of Arbitrators.** Each dispute submitted by a Party to arbitration shall be heard by a sole arbitrator or an arbitration panel composed of three arbitrators, in accordance with the following provisions:

   (a) Where the Parties agree that the dispute concerns a technical matter, they may agree to appoint a sole arbitrator or, failing agreement on the identity of such sole arbitrator within thirty (30) days after receipt by the other Party of the proposal of a name for such an appointment by the Party who initiated the proceedings, either Party may apply to *International Court of Arbitration* for a list of not fewer than five nominees and, on receipt of such list, the Parties shall alternately strike names there from, and the last remaining nominee on the list shall be the sole arbitrator for the matter in dispute.    (b) Where the Parties do not agree that the dispute concerns a technical matter, the Contracting Authority and the Contractor shall each appoint one arbitrator, and these two arbitrators shall jointly appoint a third arbitrator, who shall chair the arbitration panel. If the arbitrators named by the Parties do not succeed in appointing a third arbitrator within thirty (30) days after the latter of the two arbitrators named by the Parties has been appointed, the third arbitrator shall, at the request of either Party, be appointed by *the International Chamber of Commerce, Paris*.
