(o) “Subcontractor” means any person or entity with whom the Bidder or Contractors intends to subcontracts any part of the Services.

(p) “Terms of Reference” (TOR) means the document included in the BD as Section 5 which explains the objectives, scope of work, activities, tasks to be performed, respective responsibilities of the Procuring Entity and the Contractor, and expected results and deliverables of the assignment.

1. Introduction

1.1 The Procuring Entity named in the Data Sheet will select a firm/eligible institution among those listed in the Letter of Invitation, in accordance with the procurement method indicated in the Data Sheet, method detailed in the edition of the Guidelines indicated in the Data Sheet.

1.2 The shortlisted Bidders are invited to submit a Technical Proposal and a Financial Proposal for fee based services required for the assignment named in the Data Sheet and presented in details in the Terms of Reference attached as Section 5 of this Bidding Documents. The proposal and the Terms of Reference will be the basis for contract for a signed contract with the successful firm.

1.3 The assignment shall be implemented in accordance with the phasing indicated in the Data Sheet. When the assignment includes several phases, the performance of the Bidder under each phase must be to the Procuring Entity's satisfaction before work begins on the next phase.

1.4 The Bidders must familiarize themselves with local conditions and take them into account in preparing their proposals. To obtain firsthand information on the assignment and on the local conditions, Bidders are encouraged to request the Procuring Entity to provide further information before submitting a proposal and to attend a pre-bid conference if one is specified in the Data Sheet. Attending the pre-proposal conference is optional. The Bidders’ representative should contact the Procuring Entity at the address stated in the Data Sheet or to obtain additional information on the pre-bid conference.

1.5 The Procuring Entity will provide the inputs specified in the Data Sheet, assist the firm in obtaining licenses and permits needed to
carry out the services, and make available relevant project data and reports.

1.6 Please note that (i) the costs of preparing the proposal, including a visit to the Procuring Entity, are not reimbursable as a direct cost of the assignment; and (ii) the Procuring Entity is not bound to accept any of the proposals submitted.

1.7 SADC Secretariat policy requires that Bidders provide professional, objective, and impartial advice and at all times hold the Procuring Entity’s interests paramount, without any consideration for future work, and strictly avoid conflicts with other assignments or their own corporate interests. Bidders shall not be hired for any assignment that would be in conflict with their prior or current obligations to other clients, or that may place them in a position of not being able to carry out the assignment in the best interest of the Procuring Entity.

1.7.1 Bidders will be excluded from the bidding process if it will be in a conflict of interest situation as described below:

(a) Conflict between consulting activities and procurement of goods, works or services. A bidder or a contractor that has been engaged by the SADC Secretariat or the Procuring Entity to provide goods, works, or services for the organization, and each of its affiliates, shall be disqualified from providing consulting services related to those goods, works or services. Conversely, a bidder or a contractor hired to provide services for the preparation or implementation of a project, and each of its affiliates shall be disqualified from subsequently providing goods, works or services resulting from or directly related to the contractor’s consulting services for such preparation or implementation.

(b) Conflict among consulting assignments: Neither, bidders or contractors (including their personnel and sub-Bidders) nor any of their affiliates shall be hired for any assignment that, by its nature, may be in conflict with another assignment of the bidder or contractor. For instance, a contractor assisting SADC Secretariat or the Procuring Entity to implement a project shall not be engaged to prepare an independent assessment for the implementation of the same project, or contractors hired to prepare Terms of Reference (TOR) for an assignment shall not be hired for the assignment in question.

(c) Relationship with SADC Secretariat’s or the Procuring Entity’s staff: bidders or contractors (including their personnel
and sub-contractors) having business or family relationship with a member of the SADC Secretariat’s or the Procuring Entity’s staff directly or indirectly involved in any part of: (i) the preparation of the TOR or Technical Specification of a contract, (ii) the selection process for such contract, or (iii) the supervision of the contract, may not be awarded the contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the SADC Secretariat throughout the selection process and the execution of the contract.

1.7.2 Since previous or ongoing participation in relation to the assignment by the Bidder, its professional staff, or its affiliates or associates under a contract with the SADC Secretariat and Procuring Entity may result in rejection of the proposal, the bidders should clarify their situation in that respect with the Procuring Entity before preparing the proposal.

1.7.3 Bidders may be hired for downstream work, when continuity is essential, in which case this possibility shall be indicated in the Data Sheet and the factors used for the selection of the Bidder should take the likelihood of continuation into account. It will be the exclusive decision of the Procuring Entity whether or not to have the downstream assignment carried out, and if it is carried out, which Bidder will be hired for the purpose.

1.8 It is the SADC Secretariat’s policy to require that Procuring Entity’s staff as well as Bidders under SADC Secretariat-financed contracts, observe the highest standard of ethics during the selection and execution of such contracts. In pursuance of this policy, the SADC Secretariat:

by associating with individual Bidder(s) and/or subcontract part of the services to other consulting firms, as appropriate. Key information should include number of years working and positions and responsibilities held in various assignments during the last ten (10) years. To be considered during the evaluation, the CV shall be accompanied by proof of all stated qualifications and working experience. The proof qualifications shall be in the form of the copies of the degrees and diploma obtained, while for the professional experience the proof shall be either acknowledgement letters from the previous employers or copies of the contracts signed with them. 3.6 In preparing the Financial Proposal, Bidders are expected to take into account the requirements and conditions outlined in the BD documents. The Financial Proposal should follow Standard Forms (Section 4). It lists all costs associated with the assignment, including (a) remuneration for staff (foreign and local, in the field and at headquarters), and (b) reimbursable
expenses such as subsistence (per diem, housing), transportation (international and local, for mobilization and demobilization), services and equipment (vehicles, office equipment, furniture, and supplies), office rent, insurance, printing of documents, surveys, and training, if it is a major component of the assignment. The Reimbursable expense shall cover only the cost indicated in the Data Sheet. All other cost estimated by the bidders for the execution of the assignment shall be included in the daily fees of the experts.

3.7 The Financial Proposal shall not include the local taxes (including social security), duties, fees, levies, and other charges imposed under the applicable law in the Procuring Entity’s country or in the countries of assignment, on the Bidders, the subcontractors, and their personnel (other than nationals or permanent residents of the Procuring Entity’s country), unless the Data Sheet specifies otherwise. 3.9 The total budget available for this assignment, including the taxes indicated at para. 3.7 and the reimbursable expenses indicated at paragraph 3.8, is indicated in the Data Sheet.

3.10 Bidders must express the price of their services in the US Dollars. The payment will be made in US Dollars, and the Bidder shall bear all the cost and risks implied by the currency exchange. Financial Proposals expressed in other currencies than the US Dollars will be automatically disqualified.

3.11 Commissions and gratuities, if any, paid or to be paid by Bidders and related to the assignment will be listed in the Financial Proposal submission form (Section 4A).

3.12 The Data Sheet indicates how long the proposals must remain valid after the submission date. During this period, the Bidder is expected to keep available the professional staff proposed for the assignment. The Procuring Entity will make its best effort to complete evaluation within this period. If the Procuring Entity wishes to extend the validity period of the proposals, the Bidders
who do not agree have the right not to extend the validity of their proposals.

4. Submission, Receipt, and Opening of Proposals

4.1 The original proposal (Technical and Financial Proposal) shall be prepared in indelible ink. It shall contain no interlineation or overwriting, except as necessary to correct errors made by the firm itself. Any such corrections must be initialed by the persons or person who sign(s) the proposals.

4.2 An authorized representative of the firm initials all pages of the proposal. The representative’s authorization is confirmed by a written power of attorney accompanying the proposal.

4.3 For each proposal, the Bidders shall prepare the number of copies indicated in the Data Sheet. Each Technical Proposal and Financial Proposal shall be marked “ORIGINAL” or “COPY” as appropriate. If there are any discrepancies between the original and the copies of the proposal, the original governs.

4.4 The original and all copies of the Technical Proposal shall be placed in a sealed envelope clearly marked “Technical Proposal,” and the original and all copies of the Financial Proposal in a sealed envelope clearly marked “FINANCIAL PROPOSAL” and warning: “DO NOT OPEN WITH THE TECHNICAL PROPOSAL.” Both envelopes shall be placed into an outer envelope and sealed. This outer envelope shall bear the submission address and other information indicated in the Data Sheet and be clearly marked, “DO NOT OPEN, EXCEPT IN PRESENCE OF THE EVALUATION COMMITTEE.” Information on the outer and inner envelopes should also include the name of the Bidder and the contract name and reference number.

4.5 The completed Technical and Financial Proposals must be delivered at the submission address on or before the time and date stated in the Data Sheet. Any proposal received after the closing time for submission of proposals shall automatically rejected and shall be returned unopened to the Bidder.

5. Proposal Evaluation

General

5.1 From the time the bids are opened to the time the contract is awarded, if any Bidder wishes to contact the Procuring Entity on any matter related to its proposal, it should do so in writing at the address indicated in the Data Sheet. Any effort by the firm to
influence the Procuring Entity in the Procuring Entity’s proposal evaluation, proposal comparison or contract award decisions may result in the rejection of the Bidder’s proposal.

5.2 Evaluators of Technical Proposals shall have no access to the Financial Proposals until the technical evaluation, including any SADC Secretariat reviews, is concluded.

Public Opening and Evaluation of Technical Proposals: Scoring

5.3 The Procuring Entity shall conduct the bid opening in public at the address, date and time specified in the Data Sheet. Only the representatives of the bidders and the Evaluation Committee members are allowed to participate in public opening sessions. Any other interested person shall request, in writing, the SADC Secretariat’s permission to participate in a specific bid opening session.

5.4 The bid opening shall commence with the Chairperson the Evaluation Committee reading out the Bidders’ names and the time of arrival of the proposal. A registration number will be given to each proposal. All envelopes shall be opened one at a time, by the Chairperson of the Evaluation Committee, in order of their arrival.

5.5 At the opening, only the Technical Proposal envelope shall be opened immediately and checked for compliance with formal submission requirements by the evaluation committee. The Financial Proposal shall remain sealed and deposited in a safe place until all submitted proposals, of technically responsive bids, are opened publicly. In case the envelopes are not submitted separately the Bidder will be excluded.

5.6 No Bid shall be rejected at Bid opening except for late bids, in accordance with ITB Sub-Clause 4.5 and the other listed in the template for opening checklist (see in Annex to Services to SADC Guidelines for Procurement and Grants). Only envelopes that are opened and read out at Bid opening shall be considered further.

5.7 The Procuring Entity shall prepare the minutes of the Bid opening that shall include a brief description of the bid opening procedures and its finding as. The Bidders’ representatives who are present shall be requested to sign the attendance sheet. A copy of the minute shall be distributed to all Bidders who submitted bids in time.

5.8 Once the Bid opening is concluded, the Evaluation Committee, as a whole, and each of its voting members individually, evaluates the
proposals on the basis of their responsiveness to the Terms of Reference, applying the evaluation criteria, sub criteria (typically not more than three per criteria), and point system specified in the Data Sheet. Each responsive proposal will be given a technical score (St). A proposal shall be rejected at this stage if it does not respond to important aspects of the Terms of Reference or if it fails to achieve the minimum technical score indicated in the Data Sheet.

Public Opening and Evaluation of Financial Proposals: Ranking

5.9 After the evaluation of quality is completed, the Procuring Entity shall notify those Bidders whose proposals did not meet the minimum qualifying mark or were considered nonresponsive to the BD and Terms of Reference, indicating that their Financial Proposals will be returned unopened after completing the selection process. The Procuring Entity shall simultaneously notify the Bidders that have secured the minimum qualifying mark, indicating the date and time set for opening the Financial Proposals. The opening date shall not be sooner than two weeks after the notification date. The notification may be sent by registered letter, cable, telex, facsimile, or electronic mail.

5.10 The Financial Proposals shall be opened publicly in the presence of the Bidders’ representatives who choose to attend. The name of the Bidder, the technical scores, and the proposed prices shall be read aloud and recorded when the Financial Proposals are opened. The Procuring Entity shall prepare minutes of the public opening.

5.11 The evaluation committee will determine whether the Financial Proposals are complete (i.e., whether they have costed all items of the corresponding Technical Proposals; if not, the Procuring Entity will cost them and add their cost to the initial price), correct any computational errors, and determine if the total price is within the maximum budget available. The evaluation shall exclude those taxes, duties, fees, levies, and other charges imposed under the applicable law; and to be applied to foreign and non-permanent resident Bidders (and to be paid under the contract, unless the Bidder is exempted), and estimated as per para. 3.7.

5.12 Once corrections or adjustments have been applied, the Financial Proposal shall be adjusted with the Regional Preference. This implies that a bid offering fifty percent (50) % or more expertise (experts) from the SADC Region will be discounted, for the purpose of evaluation only, with fifteen percent (15%).
For the purpose of calculation of the percentage of regional expertise, the basis shall be the total number of key staff days allocated to regional experts in the overall allocation of key staff resources proposed by the bidder.

5.13 The lowest Financial Proposal (Fm) will be given a financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the Data Sheet. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1) indicated in the Data Sheet: \[ S = St \times T\% + Sf \times P\% \]. The firm achieving the highest combined technical and financial score will be awarded the contract.

6. Negotiations of Contract

6.1 The Contracting Authority, prior to award the contract, may enter into negotiation with the successful bidder in order to confirm the availability of proposed Professional staff, incorporation in the methodology of the aspects for which clarifications where requested during the evaluation and the modification of the schedule of mobilization of the team and submission of deliverables under the contract.

**General Objectives**

The overall objective of the Mid-Term Review of the Revised RISDP and SIPO is to conduct an assessment and take stock of achieved results at output and outcome level and challenges encountered in the implementation of the Revised RISDP and SIPO, document the lessons learned and draw strategic recommendations to inform implementation of the remaining implementation as well as the Post 2020 Agenda. The Review should assess the actual or intended change in development conditions; changes in institutional performance or behavioral change of beneficiaries of the Revised RISDP and SIPO. The results will be used to inform policy decisions regarding the remaining implementation period and also the development of the Vision 2050 and the Mid Term Strategic Plan 2020-2030.

**Specific objectives**

The specific objectives of the Mid-Term Review and SIPO will look at the relevance, effectiveness, and efficiency of interventions as well as the sustainability of the results, and the degree of satisfaction of the beneficiaries as defined in the Revised RISDP document and SIPO. The specific objectives should be reviewed within the context of the **SADC**.
Treaty and Regional Integration Agenda as follows:

(i) **Relevance:** Assess the extent to which the programmes developed to implement the Revised RISDP and SIPO remain valid and pertinent to the SADC Treaty and the regional integration objectives and Secretariat’s core priorities, the Member State’s needs, and development partners.

(ii) **Effectiveness:** The extent to which the results achieved so far are contributing to the SADC Treaty and the stated RISDP and SIPO objectives and purpose. The key issue here is the extent to which implementation programmes have been effective in addressing the RISDP and SIPO objectives.

(iii) **Efficiency:** How well resources or inputs (funds, expertise, time, etc.), in general were utilised in line with the achieved results. The evaluation should also review the balance between the different activities and whether the resources allocated reflect their relative importance in achieving outputs.

(iv) **Sustainability:** The extent to which Revised RISDP and SIPO results and impact are likely to be sustained at Member States level through assessment of the technical and financial capacity of the Member States to maintain these results. The Review should make an assessment and recommendations on the level of ownership of the interventions at Member States level.

(v) **Impact:** Taking into consideration that regional integration is a long term process, the review will analyse the direct and indirect effects of the implementation programmes and their contribution to the SADC Treaty; as well as the Revised RISDP and SIPO goals and ultimately to the reduction of poverty in the SADC region.

TERMS OF REFERENCE

CONTRACT REFERENCE NUMBER: SADC/3/5/2/15

SADC SECRETARIAT
1. **BACKGROUND INFORMATION**

1.1 **OVERVIEW AND RATIONALE OF THE ASSIGNMENT**

- **Regional Indicative Strategic Development Plan (RISDP)**
  The Regional Indicative Strategic Development Plan of SADC is a comprehensive 15–year strategic roadmap, which provides the strategic direction for achieving SADC’s long term social and economic goals. It also provides the SADC Secretariat and other SADC institutions with clear guidelines on SADC’s approved social and economic priorities and policies and therefore, enhancing their effectiveness in discharging their facilitating and coordinating role. It was approved by SADC Summit in 2003 and its effective implementation began in 2005.

  The Plan re-affirms the commitment of SADC Member States to good, political, economic and corporate governance entrenched in a culture of democracy, full participation by civil society, transparency and respect for the rule of law. The ultimate objective of the RISDP is to deepen the integration agenda of SADC with a view to accelerating poverty eradication and the attainment of other economic and non-economic development goals. It lists the twelve priority areas identified by SADC Council in which action must be taken to achieve the overarching goal of regional integration. The RISDP provides milestones and targets for each priority area. The Plan also briefly analyses the SADC Framework for integration, economic, human and social trends as well as identify gaps and current policies and strategies in place within SADC. Issues of resources mobilization are also reflected upon and the broad principles for the institutional mechanisms required for successful implementation of the plan are presented. A specific framework for monitoring and evaluating the RISDP is also outlined.

- **Revised Regional Indicative Strategic Development Plan**
  The Revised RISDP provides a guiding framework for the last phase of the RISDP, i.e. 2015-2020. The scope and purpose of the Revised RISDP remain unchanged from those of the original document, except that emphasis has been placed on realigning existing priorities with resource allocation in terms of their relative importance and greater impact on regional integration. It defines specific results and timeframes in the various areas of cooperation and integration to facilitate monitoring and evaluation. The purpose of the Revised RISDP is to deepen regional integration in SADC as it provides SADC Member States with a consistent and comprehensive programme of medium-term economic and social policies. It also provides the
Secretariat and other SADC institutions with a clear view of SADC’s approved economic and social policies and priorities.

The SADC priorities for regional cooperation and integration, as streamlined by Council in Lusaka, Zambia, in 2007 are: Trade/Economic Liberalization and Development; Infrastructure in support of regional integration; Peace and security cooperation; and Special programmes of regional dimension. Taking into account lessons learned in the implementation of the RISDP as well as new developments that have occurred, these priorities remain relevant and have been re-organised in the Revised RISDP 2015-2020, as follows: Priority A – Industrial Development and Market Integration; Priority B – Infrastructure in support of regional integration; Priority C – Peace and security cooperation; and Priority D – Special programmes of regional dimension under Education and Human Resource Development, Health, HIV and AIDS and other diseases of public health importance, Employment and Labour, Food Security and Trans-boundary Natural Resources, Environment, Statistics, Private Sector, Gender Equality, and Science, Technology and Innovation and Research and Development.

- **Strategic Indicative Plan for the ORGAN (SIPO I)**
  The core objective of the Strategic Indicative Plan for the Organ on Politics, Defense and Security is to create a peaceful and stable political and security environment through which the region will endeavor to meet its socio-economic objectives. Based on the objectives and common agenda of SADC, the Plan provides general guidelines that spell out specific activities, in accordance with the objectives of the Protocol on Defense, Politics and Security Cooperation, and the strategies for their realisation and public security. It provides ways through which appropriate strategies and activities in each specific field can be implemented. The SIPO I also provides the institutional framework for the day to day implementation of the activities of the Organ, including the Protocol on Politics, Defence and Security Cooperation and the Mutual Defence Pact.

- **The Revised Edition of the Strategic Indicative Plan for the Organ (SIPO II)**
  The Revised Edition of the Strategic Indicative Plan for the Organ (SIPO II) provides a review of the first edition of the Plan. Based on the objectives and common agenda of SADC, the SIPO I, first signed in 2004, provided general guidelines that spelt out specific implementation activities, in accordance with the objectives of the Protocol on Defense, Politics and Security Cooperation, and the strategies for their realisation, covering the Public Security, Political, Defence, and State security sectors. SIPO II
launched in November 2012, reflects on the milestones and challenges of implementation faced by Member States and other implementing stakeholders. On the whole, there has been substantial progress in the SADC region on issues related to political governance, the observation of elections, the establishment of the SADC Electoral Advisory Council (SEAC) and the mediation units. Challenges still remain in the areas of economic underdevelopment; HIV/AIDS pandemic; intra- and inter-state conflicts; consolidation of democracy and good governance; refugees, irregular/illegal migrants and internal displaced persons, corruption; growing vulnerability of national borders affected by cross-border crime, illicit mining, among others.

SIPO II, which also covers an additional Police sector, endeavors to respond to the identified challenges that could threaten the security and political stability of the region. It also emphasizes the development of annual plans by each sector to complement the objectives of the Plan and further requires that strict monitoring and evaluation mechanisms be put into place to review the implementation of planned activities and provide information on a regular basis to stakeholders.

1.2 A REVIEW OF IMPLEMENTATION OF RISDP, REVISED RISDP, AND SIPO

1.2.1 Review of Implementation of RISDP23

Approved by the SADC Summit in 2004, the RISDP and its implementation plan adopted in 2005 lay the foundation for SADC regional integration over a 15-year period. As a development strategy, the RISDP provides the Member States, SADC Secretariat, and other SADC institutions with clear guidelines on SADC approved social and economic priorities and policies, and guidance in effectively discharging their respective mandates, facilitating and coordinating roles.

In September 2009, the SADC Council of Ministers directed the SADC Secretariat to conduct a Mid-Term Review (MTR) of the RISDP, in accordance with the directive made in 2003 that the RISDP shall be regularly monitored and evaluated within the stipulated time frames of its implementation framework. In 2011, the Secretariat conducted an Internal Desk Assessment of the RISDP implementation as an initial stage of the whole RISDP review process. At the same time, Council, at its meeting in 2011, decided that an independent MTR of the RISDP should be conducted, building on the outcome of the internal desk assessment.

23 The RISDP Mid-Term Review Report would be a key input to the formulation of Vision 2050
The overall motivation of the MTR of the RISDP was to provide general and objective feedback to SADC and its stakeholders on the efficiency, effectiveness and coherence of the RISDP in achieving the overall objective of poverty alleviation and its ultimate eradication. Specifically, the MTR aimed at assessing the achievements made and challenges encountered in the implementation of the RISDP. The MTR would then inform policy decisions regarding the development of a SADC medium term strategy framework within the remaining implementation period of the RISDP, as well as the review of longer term strategies, taking into account the dynamic political, economic and social context in which SADC is evolving.

The key main message from the MTR report was that despite the several challenges ranging from limited financial and technical resources, volatilities in the global economy and crisis, SADC region had made significant progress in implementing the RISDP in most of the areas although to varying degrees. Most critical and important is that policies, protocols and frameworks had been developed, adopted and approved by various Governing structures of SADC. Important agreements and institutions to guide the regional integration and implementation process by all MS and stakeholders had been put in place and had become an integral process of advancing the roadmap of SADC’s common agenda.

It was suggested that the remaining period of the RISDP should therefore focus on translating policies into action. One message from across the breadth of the region’s key stakeholders was unanimous that, “SADC should maintain its niche by returning to its roots; namely to focus on original objectives of development integration where top priority is industrialization, economic diversification and infrastructure development, the necessary conditions for economic transformation.” Another key message was that SADC should broaden participation and become people driven.

The MTR noted that in a decade characterized by diverse and widespread, global economic and financial crises, irresistible shift of economic power from the West to East, adverse economic down turn in the major economies, socio-political turmoil including the Arab spring, Euro zone financial crises, volatility in commodity prices, resource driven global economic growth and the accompanying race for Africa’s raw materials, escalating effects of climate change, stalemate of the World Trade Organization (WTO) multilateralism and concomitant resurgence of regionalism, SADC stands at a critical juncture in its integration journey. A whole set of new challenges, threats, opportunities and promises had emerged. That new global context presented both challenges and threats but the report suggested that SADC should seize the moment to turn threats to promises and opportunities. Without regional integration, it would be difficult for most Member States to overcome some of the challenges, but with collective unity of purpose under the regional SADC
umbrella, all Member States and the region have the necessary muscle to turn most of the challenges into opportunities. This is the perspective in which the outcome and message of this RISDP MTR needed to be viewed.

1.2.2 Review of Implementation of Revised RISDP

2015 marked the first year of implementation for the SADC Revised RISDP after it was adopted by the SADC Summit of Heads of State and Government in April 2015. The Revised RISDP provides the guiding framework for the remaining implementation period of the RISDP (2015-2020) and was developed after the MTR of the RISDP. The year 2018 is the mid-term point for the implementation of the Revised RISDP and provides an opportunity to review implementation progress and likelihood of attainment of end of term results.

The scope and purpose of the Revised RISDP remain unchanged from those of the original Plan, except that it emphasises re-aligning existing priorities with resource allocation in terms of their relative importance and greater impact on regional integration. In approving the Revised RISDP, Council directed the Secretariat, to frontload industrialisation as a primary driver for economic growth and socio-economic development. The main tenet of this strategy is to focus on promoting regional value chains and increase value addition in selected priority sectors; including agro food processing, mineral beneficiation and pharmaceuticals in the short to medium term. In the long term, the objective is to increase the region’s manufacturing capacity, competitiveness, and capacity to trade, hence achieve sustainable and economic transformation of the region. Furthermore, Council emphasized that the Revised RISDP should leverage existing and potential synergies with infrastructure.

In this regard, the Strategic and Implementation Framework of the Revised RISDP recognises the SADC Industrialisation Strategy and Roadmap (2015-2063), the SADC Regional Infrastructure Development Plan (RIDMP 2012-2027) and the SADC Regional Agriculture Policy and Investment Plan (time frame) as key strategic documents that complement implementation of the RISDP.

An internal MTR of the revised RISDP has been conducted focusing on the mid-term level performance and progress towards realisation of the end of term (2020) targets. The findings from this review indicate that commendable progress has been made in the implementation of the revised RISDP. A total of 195 targeted outputs were planned to be implemented during the 5-year period of the Revised RISDP, and so

24 The Revised RISDP Mid-Term Review would also be a key input to the formulation of Vision 2050
far 16% targeted outputs have been achieved and 66% more are expected to be achieved by 2020. There is a likelihood that 13% would not be achieved, and the remaining 5% targeted outputs are either planned to commence between 2018 and 2020 or there was no update provided, hence it was difficult to assess the likelihood of achieving them within the Revised RISDP implementation period.

Linkages and synergies between industrialisation and other sectors have been and continue to be strengthened. Achievements are in the areas of establishing a robust financing framework for priority regional programmes and resource mobilisation for project preparation and investment; facilitation of the movement of people for the transfer and sharing of skills within the region; strengthening of standards and the regulatory framework to support manufacturing; addressing customs related bottlenecks and enhancing the regional financial transaction mechanism to facilitate trade within the region.

The deliberate efforts to fast track regional infrastructure development to catalyse industrial development and support regional integration have resulted in intensive project preparation activities, mainly in the energy, water and transport sectors. A total of 20 projects are currently undergoing preparation, whilst 20 are in the pipeline for preparation in the next cycle of funding supported by various project preparation and investment facilities. Project preparation and investment facilities that support project preparation and project implementation include, amongst others, the SADC PPDF under which 35 projects are at different stages of preparation; the SADC Regional Fund for Development of Water Infrastructure (2 projects), the Southern African Power Pool Project Advisory Unit (SAPP PAU) for priority power projects (6 projects), AU PIDA Project Acceleration Programme (2 Corridor projects) and NEPAD IPPF.

Regional-national linkages remain weak as planned interventions for strengthening coordination mechanisms are at a preliminary stage or behind schedule, in particular, the national coordination capacity and the private sector engagement mechanism. A notable achievement in this area is the establishment of the National Planning Entities Platform.

Most sectors in all the Priority Areas have developed and adopted sector policies and strategies aligned to the development objectives and priorities of the RISDP. However, resource mobilisation remains constrained, pending the finalisation and adoption of the Resource Mobilisation Framework.

The SADC Results Based Monitoring and Evaluation Online System was developed and approved by Council in 2017 and the RISDP Monitoring and Evaluation
Framework and Indicator Reference Sheet were approved in 2017. However, the effectiveness of the system is constrained by the unavailability of data as there were no baselines done on the RISDP and monitoring data is not yet adequately available as the roll-out and training of Member States on the system is slower than anticipated, mainly due to financial resources.

Although various initiatives to promote sectoral RISDP programmes have been undertaken at sectoral level (such as the Industrialisation Week and other Sectoral Sensitisation Weeks, Infrastructure Investment Conferences, Information Sharing and Dialogue Platforms), the absence of a coordinated mechanism to promote the RISDP is a glaring gap in terms of communication and visibility for the regional programme. Addressing this gap would contribute towards raising awareness, particularly in the region and to enhance resource mobilisation efforts.

### 1.2.3 Review of the Strategic Indicative Plan of the Organ (SIPO)

In the area of Peace and security, the Strategic Indicative Plan for the Organ (SIPO) aimed at operationalizing and implementing the SADC Protocol on Politics, Defence and Security Cooperation on a five (5) year basis was developed and adopted in 2003 and launched in 2004 in Grand Baie, Mauritius.

An initial internal SADC review of SIPO in 2007 revealed the existence of challenges resulting from the evolving geopolitical dynamics at both the international and regional levels. The review also identified some shortcomings in the implementation of SADC’s peace and security agenda: (i) weaknesses in SADC’s ability to effectively respond to the evolving socio-political environment; (ii) limited co-ordination for monitoring and evaluation of regional political and security cooperation activities; (iii) limited awareness and access to information on national government services by communities at various levels; (iv) weak community and non-state actor engagement on inclusive peace, security, stability and democracy; as well as (v) uncoordinated policies, strategies and programmes at regional and national levels.

In this regard, the review concluded that there is need to review and re-evaluate the SIPO every five years to ensure appropriate responses to challenges facing the region. The revised SIPO was approved and adopted by the Ministerial Committee of the Organ (MCO) in Maputo, Mozambique, on 5 August 2010; and subsequently launched in Arusha, United Republic of Tanzania, on 12 November 2012. The life span of the revised SIPO elapsed in 2015. The MCO meeting held on 21 – 22 July 2015 in Pretoria, Republic of South Africa, approved the extension of SIPO II for a period of one year and directed the Secretariat to undertake its evaluation. In 2016, an exercise was commissioned to assess the successes, achievements, failures and
challenges of SIPO II, the findings of which were intended to serve as inputs into the development of the new SADC Peace and Security Architecture.

Some of the key findings of the evaluation exercise were that Member States were generally able to implement essential elements of the SIPO II policy document. The key identified achievements included the pursuit of democracy and stability in the SADC region through promotion of democracy, good governance and election management which are key requirements of development integration; the establishment of a comprehensive mediation and conflict management architecture has strengthened SADC’s ability to undertake peace-making and peacekeeping in a coordinated manner; the establishment of the SADC Standby Force and its readiness and willingness to be deployed has enhanced SADC’s ability to pursue peace-making and peacekeeping in a robust fashion; the establishment of an early warning system has further strengthened SADC’s ability to pursue peace and security; public security and police cooperation and coordination have been improved to strengthen the region’s ability to manage public safety and security and to address crime. The review identified some critical challenges and encouraged Member States to allocate additional tangible and non-tangible resources to secure the region from harm and threats. The review of SIPO II further conducted in 2016 indicated that the strategic objectives under SIPO II are still relevant and should be maintained. In this regard, the life span of SIPO II was extended until 2020.

Following the review of SIPO II in 2016, the Secretariat presented a draft Costed Implementation Plan for Priority C: Peace and Security under the Revised RISDP to the MCO which directed that the lessons learnt during the evaluation of SIPO II should be included in the Draft Implementation Framework and Indicative Coordination Costs of Peace and Security Cooperation for 2016-2020.

Earlier in August 2010, the MCO directed the Secretariat to ensure that only non-strategic activities of the Organ are amenable to ICP funding while the strategic ones shall be funded by Member States. In this context, the Inaugural Peace and Security Thematic Group (PSTG) meeting was held on 25 May 2018. The PSTG is intended to support the implementation of selected interventions outlined in the SIPO II and RISDP. The PSTG is intended to work at the technical level under the guidance of the SADC-ICP Dialogue Platform and within the principles of the Windhoek Declaration. The thematic group is a platform for ICPs to provide financial and technical support to SADC’s peace and security programmes. Against this backdrop, there is need to further assess the current implementation portfolio of SIPO II as part of the wider effort to recalibrate the SADC Vision.
2. OBJECTIVE, TASKS & EXPECTED RESULTS

2.1 OVERALL OBJECTIVE

The overall objective of the Mid-Term Review of the Revised RISDP and SIPO is to conduct an assessment and take stock of achieved results at output and outcome level and challenges encountered in the implementation of the Revised RISDP and SIPO, document the lessons learned and draw strategic recommendations to inform implementation of the remaining implementation as well as the Post 2020 Agenda. The Review should assess the actual or intended change in development conditions; changes in institutional performance or behavioral change of beneficiaries of the Revised RISDP and SIPO. The results will be used to inform policy decisions regarding the remaining implementation period and also the development of the Vision 2050 and the Mid Term Strategic Plan 2020-2030.

2.1.1 Specific objectives

The specific objectives of the Mid-Term Review and SIPO will look at the relevance, effectiveness, and efficiency of interventions as well as the sustainability of the results, and the degree of satisfaction of the beneficiaries as defined in the Revised RISDP document and SIPO. The specific objectives should be reviewed within the context of the SADC Treaty and Regional Integration Agenda as follows:

(vi) **Relevance**: Assess the extent to which the programmes developed to implement the Revised RISDP and SIPO remain valid and pertinent to the SADC Treaty and the regional integration objectives and Secretariat’s core priorities, the Member State’s needs, and development partners.

(vii) **Effectiveness**: The extent to which the results achieved so far are contributing to the SADC Treaty and the stated RISDP and SIPO objectives and purpose. The key issue here is the extent to which implementation programmes have been effective in addressing the RISDP and SIPO objectives.

(viii) **Efficiency**: How well resources or inputs (funds, expertise, time, etc.), in general were utilised in line with the achieved results. The evaluation should also review the balance between the different activities and whether the resources allocated reflect their relative importance in achieving outputs.

(ix) **Sustainability**: The extent to which Revised RISDP and SIPO results and impact are likely to be sustained at Member States level through assessment of the technical and financial capacity of the Member States to maintain these results. The Review should make an assessment and recommendations on the level of ownership of the interventions at Member States level.
(x) **Impact:** Taking into consideration that regional integration is a long term process, the review will analyse the direct and indirect effects of the implementation programmes and their contribution to the SADC Treaty; as well as the Revised RISDP and SIPO goals and ultimately to the reduction of poverty in the SADC region.

### 2.1.2 Scope of the Review

The review should consider the following:

(i) Assessment of progress towards intended results as outlined in the Revised RISDP and SIPO. The review should consider planned against achieved outputs and targets and the extent to which outcomes have been achieved in the three years of implementation.

(ii) Review achievement of the intermediary outcomes of the Revised RISDP and SIPO by assessing the direct and indirect or unintended changes because of implementation of the Revised RISDP and SIPO at Member States level towards achievement of the Regional Integration and poverty reduction.

(iii) Review the monitoring of the Revised RISDP and SIPO implementation. The Consultants should consider the challenges and gaps in measuring the results including but not limited to the data collection tools; and systems and process. The Consultants should consider the findings, challenges and gaps in devising tools for collecting information from the Member States.

(iv) The consultants will be required to identify and document risks that could hinder completion of the remaining outputs and targets of the Revised RISDP and SIPO and propose supportive recommendations and strategic mitigation measures to improve implementation and impact at the Secretariat and Member States level.

(v) Review adaptive management processes adopted during implementation of the Revised RISDP and SIPO, within the context of the SADC Treaty. The assessment should include but not limited to:

- Strategies and programmes implemented by the Secretariat and Member States to enhance implementation of the Plan;
- Policies, strategies and programmes implemented by Member States and facilitated by the Secretariat;
- Various legal instruments, including Protocols, under implementation in Member States during the review period;
- The various initiatives made by Member States in implementing the provisions of the RISDP;
Regional Infrastructure Development Master Plan (2012);
SADC Regional Agricultural Policy (RAP);
SADC Industrialization Strategy and Roadmap (2015 – 2063);
The SADC Regional Counter-Terrorism Strategy and Action Plan;
SADC Regional Aquatic Animal Health Strategy (2016-2026);
Regional Tourism Growth and Development Strategy (2020);
SADC Law Enforcement and Anti-Poaching Strategy (2016-2021);
SADC Food and Nutrition Security Strategy 2015-2025;
SADC Strategy on Pooled Procurement and Essential Medicines; and
The Regional Strategy on Women, Peace and Security.

Note: The consultants will further be required to review, though not limited to, the following documents: the SADC Treaty, the Regional Indicative Strategic Development Plan (RISDP), revised RISDP, and the Revised SIPO, Policies, Protocols and Agreements/Strategic Instruments, various reports of SADC policy organs (Council and Technical committees), reports by SADC subsidiary institutions, implementation progress reports and evaluation reports, as well as independent studies. A key source of information would be the Report of the independent mid-term review of the RISDP 2005-2012.

2.4 Results to be Achieved

The main expected results to be achieved under this assignment are:

- The review of achievements, challenges and shortfalls of the Revised RISDP and SIPO;
- A detailed and informative Review Report of the Revised RISDP and SIPO;
- Clearly articulated risks and mitigation measures for consideration during implementation of the remaining period of both the Revised RISDP and SIPO;
- Recommendations for improvement of implementation of the remaining outputs and activities; and
- Recommended orientation and focus for the development of Vision 2050 and Medium-Term Strategy Plan 2020-2030.
- And any other recommendations that may enhance the implementation of SADC’s strategies, programmes and plans and promote better regional-state level coordination towards the goal of developmental integration.
3. METHODOLOGY

The consultancy firm is required to undertake the processes outlined below. However, the firm is at liberty to expand the proposed methodology for consideration by the client:

3.1 Review of key documentation:

Undertake a detailed review of key documentation, including existing regional and national policies, strategies, programmes and institutional frameworks related to SADC development. Insights gained and questions that emerge from the review of these documents will be used in subsequent consultative interviews with key stakeholders. The documents will be obtained from the SADC Secretariat, from the government ministries, departments and agencies of the Member States, private sector institutions, key development partners and the civil society.

Other relevant information will be obtained from existing literature including various studies and reports from regional and international organizations, other government documents and records, other relevant institutions and organizations;

Views will also be solicited from policy related stakeholders and representatives from research institutions and academia, Business Councils, Chambers of Commerce and from key Civil Society Organizations (list of potential stakeholders to be consulted is annexed). This will be done to gather the necessary primary information, partly to verify the data collected from the documentation review, and to fill the gaps that emerge from the literature review. The consultative meetings and interviews will provide an opportunity to explore relevant issues in relation to developments within the SADC region and beyond.

Views will further be gathered through consultation with National Contact Points, SADC National Committees, senior officials who are responsible for implementing the Revised RISDP and SIPO in sampled sectors to be agreed upon with the Secretariat.
as well as non-state stakeholders including targeted beneficiaries of SADC programmes in sampled Member States.

3.3 Participate in a regional verification workshop for key stakeholders

The Consultants will participate in the regional consultative validation workshop to solicit and incorporate stakeholders’ views at regional level as part of the participatory approach. The workshop is meant to ensure ownership of the key aspects of cooperation. It is through a participatory approach that various stakeholders will be given an opportunity to express their views and ideas and to consider the facts being presented by the Consultants. This Contract shall come into force and effect on the date (the “Effective Date”) the Contracting Authority specifies in the notice to the Contractor instructing the Contractor to begin carrying out the Services. This notice shall confirm that the effectiveness conditions, if any, listed in the SC have been met.

2.6.5. Following the receipt of the Contractor's proposal, the Task Manager shall decide as soon as possible whether or not the variation shall be carried out. If the Task Manager decides that the variation shall be carried out he/she shall issue the administrative order stating that the variation shall be carried out under the conditions given in the Contractor's proposal or as modified by the Task Manager in accordance with or pursuant to Clause GC 2.6.4.

2.6.6. On receipt of the administrative order requesting the variation, the Contractor shall proceed to carry out the variation and be bound by these General Conditions in so doing as if such variation were stated in the contract.

(b) Furthermore, if the Contractor, as part of the Services, has the responsibility of advising the Contracting Authority on the procurement of goods, works or services, the Contractor shall comply with the SADC Secretariat’s applicable procurement guidelines, and shall at all times exercise such responsibility in the best interest of the Contracting Authority. Any discounts or commissions obtained by the Contractor in the exercise of such procurement responsibility shall be for the account of the

3.2.3 **Prohibition of Conflicting Activities**

- **(c)** Any other action that may be specified in the SC.

### 3.8 Reporting Obligations

4. CONTRACTORS’ PERSONNEL AND SUB-CONTRACTORS

4.1 General

The Contractor shall employ and provide such qualified and experienced Personnel and Sub-Contractors as are required to carry out the Services.

4.2 Description of Personnel

(a) The title, agreed job description, minimum qualification and estimated period of engagement for carrying out the Services by each of the Contractor’s Key Personnel are described in Appendix B. If any of the Key Personnel has already been approved by the Contracting Authority, his/her name is listed as well.

(b) If required to comply with the provisions of Clause GC 3.1.1 hereof, adjustments with respect to the estimated periods of engagement of Key Personnel set forth in Appendix B may be made by the Contractor by written notice to the Contracting Authority, provided: (i) that such adjustments shall not alter the originally estimated period of engagement of any individual by more than 10% or one week, whichever is larger, and (ii) that the aggregate of such adjustments shall not cause payments under this Contract to exceed the ceilings set forth in Clause GC 6.1(b) of this Contract. Any other such adjustments shall only be made with the Contracting Authority’s written approval.

(c) If additional work is required beyond the scope of the Services
specified in Appendix A, the estimated periods of engagement of Key Personnel set forth in Appendix B may be increased by agreement in writing between the Contracting Authority and the Contractor. In case where payments under this Contract exceed the ceilings set forth in Clause GC 6.1(b) of this Contract, this will be explicitly mentioned in the agreement.

4.3 Approval of Personnel

The Key Personnel and Sub-Contractors listed by title as well as by name in Appendix B are hereby approved by the Contracting Authority. In respect of other Personnel which the Contractor proposes to use in the carrying out of the Services, the Contractor shall submit to the Contracting Authority for review and approval copies of their Curricula Vitae (CVs). If the Contracting Authority does not object in writing (stating the reasons for the objection) within twenty-one (21) days from the date of receipt of such CVs, such Personnel shall be deemed to have been approved by the Contracting Authority.

4.4 Working Hours, Overtime, Leave, etc.

(a) Working hours and holidays for Key Personnel are set forth in Appendix A hereto. To account for travel time, Foreign Personnel carrying out Services inside the Contracting Authority’s country shall be deemed to have commenced, or finished work in respect of the Services such number of days before their arrival in, or after their departure from the Contracting Authority’s country as is specified in Appendix A hereto.

(b) The Key Personnel shall not be entitled to be paid for overtime nor to take paid sick leave or vacation leave except as specified in Appendix A hereto, and except as specified in such Appendix, the Contractor’s remuneration shall be deemed to cover these items. All leave to be allowed to the Personnel is included in the staff-months of service set forth in Appendix A. Any taking of leave by Personnel shall be subject to the prior approval by the Contractor who shall ensure that absence for leave purposes will not delay the progress and adequate supervision of the Services.

4.5 Removal and/or Replacement of Personnel

(a) Except as the Contracting Authority may otherwise agree, no changes shall be made in the Personnel. If, for any reason beyond the reasonable control of the Contractor, such as retirement, death, medical incapacity, among others, it becomes necessary to replace any of the Personnel, the Contractor shall forthwith provide as a replacement a person of equivalent or better qualifications.

(b) If the Contracting Authority: (i) finds that any of the
Personnel has committed serious misconduct or has been charged with having committed a criminal action, or (ii) has reasonable cause to be dissatisfied with the performance of any of the Personnel, then the Contractor shall, at the Contracting Authority’s written request specifying the grounds therefore, forthwith provide as a replacement a person with qualifications and experience acceptable to the Contracting Authority.

(c) Any of the Personnel provided as a replacement under Clauses (a) and (b) above, as well as any reimbursable expenditure the Contractors may wish to claim as a result of such replacement, shall be subject to the prior written approval by the Contracting Authority. The rate of remuneration applicable to a replacement person will be obtained by multiplying the rate of remuneration applicable to the replaced person by the ratio between the monthly salary to be effectively paid to the replacement person and the average salary effectively paid to the replaced person in the period of six months prior to the date of replacement. Except as the Contracting Authority may otherwise agree:, (i) the Contractor shall bear all additional travel and other costs arising out of or incidental to any removal and/or replacement, and (ii) the remuneration to be paid for any of the Personnel provided as a replacement shall not exceed the remuneration which would have been payable to the Personnel replaced.

4.6 Resident Project Director

If required by the SC, the Contractor shall ensure that at all times during the Contractor’s performance of the Services in the Contracting Authority’s country a resident Project Director, acceptable to the Contracting Authority, shall take charge of the performance of such Services.

5. OBLIGATIONS OF THE CONTRACTING AUTHORITY

5.1 Assistance and Exemptions

Unless otherwise specified in the SC, the Contracting Authority shall use its best efforts to

(a) provide the Contractor, Sub-Contractors and Personnel with work permits and such other documents as shall be necessary to enable the Contractor, Sub-Contractors or Personnel to perform the Services.

(b) arrange for the Personnel and, if appropriate, their eligible dependents to be provided promptly with all necessary entry and exit visas, residence permits, exchange permits and any
other documents required for their stay in the Contracting Authority’s country.

(c) facilitate prompt clearance through customs of any property required for the Services and of the personal effects of the Personnel and their eligible dependents.

(d) issue to officials, agents and representatives of the Contracting Authority all such instructions as may be necessary or appropriate for the prompt and effective implementation of the Services.

(e) exempt the Contractor’s Personnel and any Sub-Contractors employed by the Contractor for the Services from any requirement to register or obtain any permit to practice their profession.

(f) grant to the Contractor, any Sub-Contractors and the Personnel of either of them the privilege, pursuant to the Applicable Law, of bringing into the Contracting Authority’s country reasonable amounts of foreign currency for the purposes of the Services or for the personal use of the Personnel and their dependents and of withdrawing any such amounts as may be earned therein by the Personnel in the execution of the Services.

(g) provide to the Contractor, Sub-Contractors and Personnel any such other assistance as may be specified in the SC.

5.2 Access to Land

The Contracting Authority warrants that the Contractor shall have, free of charge, unimpeded access to all land in the Contracting Authority’s country in respect of which access is required for the performance of the Services. The Contracting Authority will be responsible for any damage to such land or any property thereon resulting from such access and will indemnify the Contractor and each of the Personnel in respect of liability for any such damage, unless such damage is caused by the default or negligence of the Contractor or any Sub-Contractors or the Personnel of either of them.

5.3 Change in the Applicable Law Related to Taxes and Duties

If, after the date of this Contract, there is any change in the Applicable Law with respect to taxes and duties which increases or decreases the cost incurred by the Contractor in performing the Services, then the remuneration and reimbursable expenses otherwise payable to the Contractor under this Contract shall be increased or decreased accordingly by agreement between the Parties hereto, and corresponding adjustments shall be made to the
ceiling amounts specified in Clause GC 6.1(b).

5.4 Services, Facilities and Property of the Contracting Authority

(a) The Contracting Authority shall make available to the Contractor and its Personnel, for the purposes of the Services and free of any charge, the services, facilities and property described in Appendix A at the times and in the manner specified in said Appendix A.

(b) In case that such services, facilities and property shall not be made available to the Contractor as and when specified in Appendix A, the Parties shall agree on: (i) any time extension that it may be appropriate to grant to the Contractor for the performance of the Services, (ii) the manner in which the Contractor shall procure any such services, facilities and property from other sources, and (iii) the additional payments, if any, to be made to the Contractor as a result thereof pursuant to Clause GC 6.1(c) hereinafter.

5.5 Payment

In consideration of the Services performed by the Contractor under this Contract, the Contracting Authority shall make to the Contractor such payments and in such manner as is provided by Clause GC 6 of this Contract.

5.6 Counterpart Personnel

(a) The Contracting Authority shall make available to the Contractor free of charge such professional and support counterpart personnel, to be nominated by the Contracting Authority with the Contractor’s advice, if specified in Appendix A.

(b) If counterpart personnel are not provided by the Contracting Authority to the Contractor as and when specified in Appendix A, the Contracting Authority and the Contractor shall agree on: (i) how the affected part of the Services shall be carried out, and (ii) the additional payments, if any, to be made by the Contracting Authority to the Contractor as a result thereof pursuant to Clause GC 6.1(c) hereof.

(c) Professional and support counterpart personnel, excluding Contracting Authority’s liaison personnel, shall work under the exclusive direction of the Contractor. If any member of the counterpart personnel fails to perform adequately any work assigned to such member by the Contractor that is consistent with the position occupied by such member, the Contractor may request the replacement of such member, and the Contracting Authority shall not unreasonably refuse to act upon such request.
6. Payments to the Contractor

6.1 Cost Estimates; Ceiling Amount

(a) An estimate of the cost of the Services payable in United States Dollars is set forth in Appendix C.

(b) Except as may be otherwise agreed under Clause GC 2.6 and subject to Clause GC 6.1(c), payments under this Contract shall not exceed the ceiling specified in the SC.

(c) Notwithstanding Clause GC 6.1(b) hereof, if pursuant to any of the Clauses GC 5.3, 5.4 or 5.6 hereof, the Parties shall agree that additional payments shall be made to the Contractor in order to cover any necessary additional expenditures not envisaged in the cost estimates referred to in Clause GC 6.1(a) above, the ceiling or ceilings, as the case may be, set forth in Clause GC 6.1(b) above shall be increased by the amount or amounts, as the case may be, of any such additional payments.

6.2 Remuneration and Reimbursable Expenses

Time Based Contracts

(a) Subject to the ceilings specified in Clause GC 6.1(b) hereof, the Contracting Authority shall pay to the Contractor (i) remuneration as set forth in Clause GC 6.2(b) hereunder, and (ii) reimbursable expenses as set forth in Clause GC 6.2(c) hereunder. Unless otherwise specified in the SC, said remuneration shall be fixed for the duration of the Contract.

(b) Payment for the Personnel shall be determined on the basis of time actually spent by such Personnel in the performance of the Services after the date determined in accordance with Clause GC 2.3 and Clause SC 2.3 (or such other date as the Parties shall agree in writing), at the rates referred to in Appendix C to this Contract, and subject to price adjustment, if any, specified in SC.

(c) Reimbursable expenses actually and reasonably incurred by the Contractor in the performance of the Services and identified in Appendix C of this Contract, shall not exceed the ceiling specified in SC.

(d) The remuneration rates referred to under paragraph (b) here above shall cover: (i) such salaries and allowances as the Contractor shall have agreed to pay to the Personnel as well as factors for social charges and overhead (bonuses or other means of profit-sharing shall not be allowed as an element
of overhead), (ii) the cost of backstopping by home office staff not included in the Personnel listed in Appendix B, and (iii) the Contractor’s fee.

(e) Any rates specified for Personnel not yet appointed shall be provisional and shall be subject to revision, with the written approval of the Contracting Authority, once the applicable salaries and allowances are known.

(f) Payments for periods of less than one month shall be calculated on an hourly basis for actual time spent in the Contractor’s home office and directly attributable to the Services (one hour being equivalent to 1/176\textsuperscript{th} of a month) and on a calendar-day basis for time spent away from home office (one day being equivalent to 1/30\textsuperscript{th} of a month).

6.3 Currency of Payment

All payments shall be made in United States Dollars.

6.4 Mode of Billing and Payment

Billings and payments in respect of the Services shall be made as follows:

Time Based Contracts

(a) all payments under this Contract shall be made to the account of the Contractor specified in the SC.

(b) within the number of days after the Effective Date specified in the SC, the Contracting Authority shall cause to be paid to the Contractor advance payments as specified in the SC. Where the SC provides for an advance payment, this will be due after provision by the Contractor to the Contracting Authority of an advance payment guarantee acceptable to the Contracting Authority in an amount (or amounts) and in a currency specified in the SC. Such guarantee shall: (i) remain effective until the advance payment has been fully set off, and (ii) be in the form set forth in Appendix D hereto, or in such other form as the Contracting Authority shall have approved in writing. The advance payments will be set off by the Contracting Authority in equal installments against the payments for a number of months of the Services specified in the SC until such advance payments have been fully set off.

(c) as soon as practicable and not later than fifteen (15) days after the end of each calendar month during the period of the
Services, or after the end of each time intervals otherwise indicated in the SC, the Contractor shall submit to the Contracting Authority, in duplicate, itemized statements, accompanied by copies of invoices, vouchers and other appropriate supporting materials, of the amounts payable pursuant to Clauses GC 6.3 and GC 6.4 for such month, or any other period indicated in the SC. Separate statements shall be submitted in respect of amounts payable in foreign currency and in local currency. Each statement shall distinguish that portion of the total eligible costs which pertains to remuneration from that portion which pertains to reimbursable expenses.

(d) the Contracting Authority shall pay the Contractor’s invoices within sixty (60) days after the receipt by the Contracting Authority of such invoices with supporting documents. Only such portion of an invoice that is not satisfactorily supported may be withheld from payment. Should any discrepancy be found to exist between actual payment and costs authorized to be incurred by the Contractor, the Contracting Authority may add or subtract the difference from any subsequent payments. Interest at the annual rate specified in the SC shall become payable as from the above due date on any amount due by, but not paid on, such due date.

(e) the final payment under this Contract shall be made only after the final report and a final statement, identified as such, shall have been submitted by the Contractor and approved as satisfactory by the Contracting Authority. The Services shall be deemed completed and finally accepted by the Contracting Authority and the final report and final statement shall be deemed approved by the Contracting Authority as satisfactory ninety (90) calendar days after receipt of the final report and final statement by the Contracting Authority unless the Contracting Authority, within such ninety (90) day period, gives written notice to the Contractor specifying in detail deficiencies in the Services, the final report or final statement. In the event of the latter, the Contractor shall thereupon promptly make any necessary corrections, and thereafter the foregoing process shall be repeated. Any amount, which the Contracting Authority has paid or caused to be paid in accordance with this Contract in excess of the amounts actually payable in accordance with the provisions of this Contract, shall be reimbursed by the Contractor to the Contracting Authority within thirty (30) days after receipt.
by the Contractor of notice thereof. Any such claim by the Contracting Authority for reimbursement must be made within twelve (12) calendar months after receipt by the Contracting Authority of a final report and a final statement approved by the Contracting Authority in accordance with the above.

(f) payments in respect of remuneration or reimbursable expenses, which exceed the cost estimates for these items as set forth in Appendices D may be charged to the respective contingencies only if such expenditures were approved by the Contracting Authority prior to being incurred.

(g) with the exception of the final payment under (d) above, payments do not constitute acceptance of the Services nor relieve the Contractor of any obligations hereunder.

The Parties undertake to act in good faith with respect to each other’s rights under this Contract and to adopt all reasonable measures to ensure the realization of the objectives of this Contract.

7.2 Operation of the Contract

The Parties recognize that it is impractical in this Contract to provide for every contingency which may arise during the life of the Contract, and the Parties hereby agree that it is their intention that this Contract shall operate fairly as between them, and without detriment to the interest of either of them, and that, if during the term of this Contract either Party believes that this Contract is operating unfairly, the Parties will use their best efforts to agree on such action as may be necessary to remove the cause or causes of such unfairness, but no failure to agree on any action pursuant to this Clause shall give rise to a dispute subject to arbitration in accordance with Clause GC 8 hereof.

8. SETTLEMENT OF DISPUTES
