Website: www.sadc.int

The SADC region registered an annual inflation rate of 6.7% in September 2013 compared to September 2012 as measured by the HCPI. The monthly inflation rate for September 2013 remained the same as recorded in August 2013 at 0.4%.

Introduction

This news release relates to the full scale HCPI for the SADC region. It is the twenty-sixth in series since the launch of news releases on SADC HCPI initiative as part of the SADC Statistics Harmonization of statistics initiatives.

Annual Inflation rates for SADC Member States

From the reported annual inflation rates for September 2013 for Member States, Malawi once again registered the highest rate at 20.1% among the SADC countries. Democratic Republic of Congo (DRC) recorded the lowest rate at 1.6%.

Whereas DRC has been recording the lowest inflation rate since December 2012 among the Member States, Malawi on the other end has continuously recorded the highest, double digit inflation rate among the SADC Member States now for the seventeenth month in a row.

Annual rates for the rest of the other Member States were reported as follows: Botswana (5.3%), Lesotho (3.8%), Madagascar (7.0%), Mauritius (4.7%),

Mozambique (4.7%), Namibia (8.1%), Seychelles (4.9%), South Africa (6.6%), Swaziland (4.5%), Tanzania (6.9%), Zambia (10.1%) and Zimbabwe (3.2%) as reflected in table 2 below.

SADC Regional versus Member States Inflation Rates

Nine SADC Member States recorded rates below the regional annual inflation rate at 6.7% for September 2013 while five Member States including, Madagascar, Malawi, Namibia, Tanzania and Zambia registered rates higher than the regional average. See figure 3 below for more details.

Month on month Inflation rates for SADC Member States

All the Member States recorded increases in their month on month inflation in September 2013, except for Lesotho which recorded a decline of 0.4 percent. The highest month on month inflation rate was registered by Zambia at 2.1% as reflected in table 1 below.

Annual Inflation Rates by COICOP divisions

With regard to Classification of

Individual Consumption by Purpose (COICOP) major divisions, all divisions registered increases in their indices in September 2013 compared to September 2012 as follows: Transport (8.5%), Alcoholic Beverages and Tobacco (8.3%), Miscellaneous Goods and Services (7.9%), Recreation and Culture (7.0%), Housing, Electricity, Water, Gas and Other Fuels (5.9%), Food and Non Alcoholic Beverages (5.8%), Clothing and Footwear (5.0%), Furnishings, Household Equipment and Routine Maintenance of House (5.0%), Restaurants and Hotels (4.2%) and Communications (3.8%). See table 4 below.

Month on Month Inflation Rates by COICOP divisions

All the divisions of COICOP registered increases in their monthly inflation rates except the Communications group which recorded no change. The highest month on month inflation rate was recorded for the Food and non-alcoholic beverages as well as Recreation and Culture groups, both recording increase of 0.7%. Table 3 below provides details on this aspect of the indices.

Measures of inflation

The annual rate measures the price change between the current month and the corresponding month of the previous year. The rate is responsive to recent changes in price levels but it can

also be influenced by one-off effects in either month.

The 12 month average compares the average HCPI in the latest 12 months to the average of the previous 12 months. It overcomes

the volatility of the annual measure. The monthly rate measures the price change between the two latest months. Although up to date, it can be affected by seasonal and other short-term effects

The Harmonised Consumer Price Index

The Harmonised Consumer Price Index (HCPI) is defined as the Consumer Price Index (CPI) developed from comparable methodologies. That means CPIs which have been developed from the concepts, definitions and methods that are comparable. CPIs are economic indicators that measure changes overtime of prices of consumer goods and services purchased by households. HCPI is meant to provide an official measure of inflation in the region, and it makes international comparisons easier since the national HCPIs are produced using harmonised methodologies and as much is practicable using the same statistical classifications, standards and frameworks.

Both the HCPIs and national CPIs measure inflation faced by consumers, and use the same

data sources in most part. However, the two measure inflation with different aims and therefore, sometimes September use different concepts and methods. HCPI's main use is for monetary policy, and is used as one of the convergence criteria to assess compliance of Member States to economic unions and to monitor progress towards integration. Member states of economic unions are given target inflation levels to achieve, in specified period to be considered for some preferential treatments within the integration. And this requires a harmonised conceptual framework and comparable results. The national CPIs in addition to being the measure of inflation have many other purposes such as cost of living which September require different methodologies.

The Member States HCPIs are produced by respective Member States using agreed harmonised methodologies. The SADC HCPI is compiled by the SADC Secretariat by aggregating the National HCPIs of the Member States. These are calculated as weighted averages of the national HCPIs, using as weights each country's total household consumption expenditure converted to a common currency using the purchasing power parities derived from the results of the 2005 (for HCPIs prior to January 2013) and 2009 (For HCPIs since January 2013) International Comparison Program as supplied by the African Development Bank and the World Bank.

More information on SADC HCPI methodology can be availed on demand.

Acknowledgement

The SADC Secretariat duly acknowledges with thanks the continuous support and cooperation of the respective

National Statistics Offices of SADC Member States in providing monthly national HCPIs which forms the basis for the aggregate

SADC HPCI. The collaboration with COMESA and African Development Bank in this exercise is equally acknowledged.

Production team

This news release was produced under the auspices of the SADC Statistics Programme in the Directorate of Policy Planning Resource Mobilisation of the SADC Secretariat, Gaborone, Botswana.

The production team comprised **Mr. Ackim Jere** (Head SADC Statistics Programme) and **Ms. Mantoa Molengoane**. The news release was produced under the general direction of **Dr. Angelo**

Mondlane, Director - Directorate Policy Planning Resource Mobilisation.

Further information pertaining to methodology and related aspects of the HCPI process in SADC can be obtained by directing inquires to the following two individuals whose contact details are presented below.

Mr. Ackim Jere
Senior Officer - Statistics
Directorate-Policy, Planning Resource Mobilisation
SADC Secretariat
Private Bag 0095
Tel: +267 395 1863
Fax: +267 397 2848/318 1070
Gaborone, Botswana
Email: ajere@sadc.int

Proposed Future release dates

Scheduled dates for the coming months are:

SADC HCPI for:	Publication date by SADC Secretariat
October 2013	05 th December 2013
November 2013	10 th January 2014
December 2013	05 th February 2014
