1. BACKGROUND INFORMATION

1.1 Partner country and procuring entity

Southern African Development Community (SADC)

1.2 Contracting authority

Southern African Development Community Secretariat (SADC Secretariat)

1.3 Country background

SADC is a Regional Economic Community (REC) comprising 16 Member States, namely; Angola, Botswana, Comoros, Democratic Republic of Congo, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, United Republic of Tanzania, Zambia and Zimbabwe. Established in 1992, SADC is committed to Regional Integration and poverty eradication within Southern Africa through economic development and ensuring peace and security. SADC aspires to build a region in which there will be a high degree of harmonization and rationalization, to enable the pooling of resources to achieve collective self-reliance in order to improve the living standards of the people of the region.

Article 14 of the SADC Treaty establishes the SADC Secretariat as the principal executive institution of SADC. The Secretariat performs its mandate and functions within the policy, strategic and program provisions outlined in the Regional Indicative Strategic Development Plan (RISDP). The Regional Infrastructure Development Master Plan (RIDMP), the SADC Regional Agricultural Policy (RAP), the SADC Industrialization Strategy and the Roadmap to 2063, among others, are complementary guiding frameworks for achieving the regional integration agenda. SADC has also developed various Protocols for domestication and implementation by Member States.

One such key protocol is the SADC Protocol on Fisheries (2001). The objective of this Protocol is to promote responsible and sustainable use of the living aquatic resources and aquatic ecosystems of interest to State Parties, in order to:

- (i) promote and enhance food security and human health;
- (ii) safeguard the livelihood of fishing communities;
- (iii) generate economic opportunities from nationals in the region;
- (iv) ensure that future generations benefit from these renewable resources; and
- (v) alleviate poverty with the ultimate objective of its eradication.

The SADC Protocol on Fisheries covers a number of areas including Management of Resources, enforcement to combat illegal, unreported and unregulated (IUU) fishing, Artisanal, Subsistence and Small Scale commercial fisheries, Aquaculture, Management and Protection of the Aquatic Environments, Human Resources Development, Trade and Investment, and Science and Technology.

1.4 Current situation in the sector

About 40% of the region's population live below the poverty line of US\$1 per day. The fisheries and aquaculture sector is a major social and economic sector in the SADC region, contributing an average of 3.5% to national GDPs. From 2003 to 2020 fisheries production grew with substantial increases in the aquaculture subsector. In addition to its importance to the economies of many SADC countries in terms of income and creation of employment, the fisheries and aquaculture sector provides major, irreplaceable contributions to food and nutrition security in the region.

The SADC Protocol on Fisheries was developed to optimise the benefits coming from the fisheries and aquaculture sector, hence its implementation strategy was approved in 2010 in the form of a SADC Fisheries Programme which prioritises the areas of aquaculture, combating IUU fishing, fish trade, management of shared fisheries resources, and small-scale/artisanal fisheries.

Since entry into force of the Protocol on Fisheries in 2003, Member States have been trying to domesticate and implement the Protocol, as it was reported in June 2018 at the Joint Meeting of Ministers responsible for Agriculture and Food Security, Fisheries and Aquaculture held in Johannesburg, South Africa. At this meeting, Ministers directed the Secretariat to develop a tool that will provide a means for tracking the implementation of the protocol.

In response to a directive from the Ministers, SADC Secretariat in partnership with the Food and Agriculture Organization of the United Nations (FAO) Sub-regional Office for Southern Africa, developed a Monitoring Tool for the Protocol to help Member States to effectively and objectively report on levels of implementation of the Protocol, and for the SADC Secretariat to monitor this implementation. The Monitoring Tool was approved in principle at the Joint Meeting of Ministers responsible for Agriculture and Food Security, Fisheries and Aquaculture held in Windhoek, Namibia during June 2019. Ministers directed Secretariat to pilot the tool and improve and customise it in line with the SADC Monitoring and Evaluation Framework.

Therefore, the SADC Secretariat in November 2019, organised a training workshop for Member States to review and initiate piloting of the Monitoring Tool. The Monitoring tool was rolled out for piloting to all Member States, however, there are still data and information gaps in the current draft report, and this was mainly due to the onset of COVID-19 pandemic. More efforts are being made to help Member States to be able to fully complete the Monitoring Tool. Preliminary results from piloting of the Monitoring Tool have shown that progress has been made by most Member States in the domestication and implementation of the Protocol, with supporting policies, strategies, plans and guidelines developed both at regional and national level specifically for aquaculture, control and management of fish diseases, small scale fisheries, and fisheries monitoring control and surveillance. A lot of gaps still exist especially in domesticating some priority areas of the Protocol, mainly aquaculture, which has been identified as a priority area under the SADC Industrialisation Strategy and Roadmap to 2063.

It is against this background that a consultancy to collate, analyse and prepare a final report on progress in the domestication and implementation of the Protocol on Fisheries is proposed. This assignment will also include development of advocacy tools like factsheets, success stories and policy briefs to promote domestication and implementation of the Protocol on Fisheries in Member States.

1.5 Related programmes and other donor activities

Strengthening the National-Regional Linkages in SADC" (SNRL) is a partnership programme between the Southern African Development Community (SADC) and the German Federal Ministry for Economic Cooperation and Development (BMZ) with co-funding from the European Union (EU) as part of the Integrated Institutional Capacity-Building for the Secretariat and National Stakeholders (IICB) Programme. The Programme is implemented by the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH in partnership with SADC Secretariat. The programme is helping Secretariat to document success stories in fisheries and aquaculture, and currently the first volume focusing on Botswana, Malawi and Namibia is under development. This is supported by development of policy briefs to advocate for domestication and implementation of strategies and guidelines supporting the Protocol on Fisheries, in particular, aquaculture. This assignment will build on the interventions started under the SNRL programme, and roll-out to all SADC Member States.
