- 1. Introduction**
- 1.1 The Procuring Entity named in **the Data Sheet** will select a firm among those listed in the Letter of Invitation, in accordance with the procurement method indicated in **the Data Sheet**, and the edition of the Guidelines indicated in **the Data Sheet**.
 - 1.2 The shortlisted Bidders are invited to submit a Technical Proposal and a Financial Proposal for consulting services required for the assignment named in **the Data Sheet** and presented in details in the Terms of Reference attached as Section 5 of this Request for Proposal. The proposal and the Terms of Reference will be the basis for a signed contract with the successful firm.
 - 1.3 The assignment shall be implemented in accordance with the phasing indicated in **the Data Sheet**. When the assignment includes several phases, the performance of the Bidder under each phase must be to the Procuring Entity's satisfaction before work begins on the next phase.
 - 1.4 The Bidders must familiarize themselves with local conditions and take them into account in preparing their proposals. To obtain firsthand information on the assignment and on the local conditions, Bidders are encouraged to request the Procuring Entity to provide further information before submitting a proposal and to attend a pre-bid conference if one is specified in **the Data Sheet**. Attending the pre-proposal conference is optional. The Bidders' representative should contact the Procuring Entity at the address stated in **the Data Sheet** or to obtain additional information on the pre-bid conference.
 - 1.5 The Procuring Entity will provide the inputs specified in **the Data Sheet**, assist the firm in obtaining licenses and permits needed to carry out the services, and make available relevant project data and reports.
 - 1.6 Please note that (i) the costs of preparing the proposal, including a visit to the Procuring Entity, are not reimbursable as a direct cost of the assignment; and (ii) the Procuring Entity is not bound to accept any of the proposals submitted.
 - 1.7 SADC Secretariat policy requires that Bidders provide professional, objective, and impartial advice and at all times hold the Procuring Entity's interest's paramount, without any consideration for future work, and strictly avoid conflicts with other assignments or their own corporate interests. Bidders shall not be hired for any assignment that would be in conflict with their prior or current obligations to other clients, or that may place them in a position of not being able to carry out the assignment in the best interest of the Procuring Entity.

- 1.7.1 Bidders will be excluded from the bidding process if they will be in a conflict of interest situation as described below:
- (a) Conflict between consulting activities and procurement of goods, works or services (consulting or general). A bidder or a contractor that has been engaged by the SADC Secretariat or the Procuring Entity to provide goods, works, or services for the organization, and each of its affiliates, shall be disqualified from providing consulting services related to those goods, works or services. Conversely, a bidder or a contractor hired to provide consulting services for the preparation or implementation of a project, and each of its affiliates, shall be disqualified from subsequently providing goods, works or general services resulting from or directly related to the contractor's consulting services for such preparation or implementation.
 - (b) Conflict among consulting assignments: Neither, bidders or contractors (including their personnel and sub-Bidders) nor any of their affiliates shall be hired for any assignment that, by its nature, may be in conflict with another assignment of the bidder or contractor.  - (c) Relationship with SADC Secretariat's or the Procuring Entity's staff: bidders or contractors (including their personnel and sub-contractors) having business or family relationship with a member of the SADC Secretariat's or the Procuring Entity's staff directly or indirectly involved in any part of: (i) the preparation of the TOR or Technical Specification of a contract, (ii) the selection process for such contract, or (iii) the supervision of the contract, may not be awarded the contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the SADC Secretariat throughout the selection process and the execution of the contract.
- 1.7.2 Since previous or ongoing participation in relation to the assignment by the Bidder, its professional staff, or its affiliates or associates under a contract with the SADC Secretariat and Procuring Entity may result in rejection of the proposal, the bidders should clarify their situation in that respect with the Procuring Entity before preparing the proposal.

- 1.7.3 Bidders may be hired for downstream work, when continuity is essential, in which case this possibility shall be indicated in **the Data Sheet** and the factors used for the selection of the Bidder should take the likelihood of continuation into account. It will be the exclusive decision of the Procuring Entity whether or not to have the downstream assignment carried out, and if it is carried out, which Bidder will be hired for the purpose.

- 3.2 In preparing the Technical Proposal, Bidders are expected to examine the documents constituting this RFP in detail. Material deficiencies in providing the information requested may result in rejection of a proposal.

- 3.3 While preparing the Technical Proposal, Bidders must give particular attention to the following:

- (i) If a Bidder considers that it does not have all the expertise for the assignment, it may obtain a full range of expertise by associating with individual Bidder(s) and/or subcontract part of the services to other consulting firms, as appropriate. Financial Proposal

3.6 In preparing the Financial Proposal, Bidders are expected to take into account the requirements and conditions outlined in the RFP documents. The Financial Proposal should follow Standard Forms (Section 4). It lists all costs associated with the assignment, including (a) remuneration for staff (foreign and local, in the field and at headquarters), and (b) reimbursable expenses such as subsistence (per diem, housing), transportation (international and local, for mobilization and demobilization), services and equipment (vehicles, office equipment, furniture, and supplies), office rent, insurance, printing of documents, surveys, and training, if it is a major component of the assignment. The Reimbursable expense shall cover **only** the cost indicated in **the Data Sheet**. - 3.9 The total budget available for this assignment, including the taxes indicated at para. 3.7 and the reimbursable expenses indicated at para 3.8, is indicated in **the Data Sheet. Financial Proposals exceeding the available budget will be rejected as non-responsive.**
- 3.10 Bidders **must** express the price of their services in **Euros**. The payment will be made in **Euros**, and the Bidder shall bear all the cost and risks implied by the currency exchange. **Financial Proposals expressed in other currencies than Euros will be automatically disqualified.**
- 3.11 Commissions and gratuities, if any, paid or to be paid by Bidders and related to the assignment will be listed in the Financial Proposal submission form (Section 4A).
- 3.12 **The Data Sheet** indicates how long the proposals must remain valid after the submission date. During this period, the Bidder is expected to keep available the professional staff proposed for the assignment. The Procuring Entity will make its best effort to complete evaluation within this period. If the Procuring Entity wishes to extend the validity period of the proposals, the Bidders who do not agree have the right not to extend the validity of their proposals.
- 4. Submission, Receipt, and Opening of Proposals**
- 4.1 The original proposal (Technical and Financial Proposal) shall be prepared in indelible ink. If there are any discrepancies between the original and the copies of the proposal, the original governs.
- 4.4 The original and all copies of the Technical Proposal shall be placed in a sealed envelope clearly marked "Technical Proposal," and the original and all copies of the Financial Proposal in a sealed envelope clearly marked "**FINANCIAL PROPOSAL**" and warning: "**DO NOT OPEN WITH THE TECHNICAL PROPOSAL.**" Both envelopes shall be placed into an outer envelope and sealed. This outer envelope shall bear the submission address and other information indicated in the Data Sheet and be clearly marked, "**DO NOT OPEN, EXCEPT IN**

PRESENCE OF THE EVALUATION COMMITTEE.” Information on inner envelopes only, should also include the name of the Bidder and the contract name and reference number.

Any proposal received after the closing time for submission of proposals shall automatically be rejected and shall be returned unopened to the Bidder.

5. Proposal Evaluation

General

- 5.1 From the time the bids are opened to the time the contract is awarded, if any Bidder wishes to contact the Procuring Entity on any matter related to its proposal, it should do so in writing at the address indicated in **the Data Sheet**. Any effort by the firm to influence the Procuring Entity in the Procuring Entity’s proposal evaluation, proposal comparison or contract award decisions may result in the rejection of the Bidder’s proposal.
- 5.2 Evaluators of Technical Proposals shall have no access to the Financial Proposals until the technical evaluation, including any SADC Secretariat reviews, is concluded.

Public Opening and Evaluation of Technical Proposals: Scoring

- 5.3 The Procuring Entity shall conduct the bid opening in public at the address, date and time specified in **the Data Sheet**. Only the representatives of the bidders and the Evaluation Committee members are allowed to participate in public opening sessions. Any other interested person shall request, in writing, the SADC Secretariat’s permission to participate in a specific bid opening session.
- 5.4 The bid opening shall commence with the Chairperson of the Tender Committee reading out the Bidders’ names and the time of arrival of the proposal. A registration number will be given to each proposal. All envelopes shall be opened one at a time, by the Chairperson of the Evaluation Committee, in order of their arrival.
- 5.5 At the opening, only the Technical Proposal envelope shall be opened immediately and checked for compliance with formal submission requirements by the evaluation committee. The Financial Proposal shall remain sealed and deposited in a safe place until all submitted proposals, of technically responsive bids, are opened publicly.
- 5.6 No Bid shall be rejected at Bid opening except for late bids, in accordance with ITB Sub-Clause 4.5. Only envelopes that are opened and read out at Bid opening shall be considered further.

- 5.7 The Procuring Entity shall prepare the minutes of the Bid opening that shall include a brief description of the bid opening procedures and its findings. The Bidders' representatives who are present shall be requested to sign the attendance sheet. A copy of the minutes shall be distributed to all Bidders who submitted bids in time.
- 5.8 Once the Proposal opening is concluded, the Evaluation Committee, as a whole, and each of its voting members individually, evaluates the proposals on the basis of their responsiveness to the Terms of Reference, applying the evaluation criteria, sub criteria (typically not more than three per criteria), and point system specified in **the Data Sheet**. Each responsive proposal will be given a technical score (St). A proposal shall be rejected at this stage if it does not respond to important aspects of the Terms of Reference or if it fails to achieve the minimum technical score indicated in **the Data Sheet**.
- Public
Opening and
Evaluation of
Financial
Proposals:
Ranking**
- 5.9 After the evaluation of quality is completed, the Procuring Entity shall notify those Bidders whose proposals did not meet the minimum qualifying mark or were considered nonresponsive to the RFP and Terms of Reference, indicating that their Financial Proposals will be returned unopened after completing the selection process. The Procuring Entity shall simultaneously notify the Bidders that have secured the minimum qualifying mark, indicating the date and time set for opening the Financial Proposals. The opening date shall not be sooner than 5 days after the notification date. The notification may be sent by registered letter, cable, telex, facsimile, or electronic mail.
- 5.10 The Financial Proposals shall be opened publicly in the presence of the Bidders' representatives who choose to attend. The name of the Bidder, the technical scores, and the proposed prices shall be read aloud and recorded when the Financial Proposals are opened. The Procuring Entity shall prepare minutes of the public opening.
- 5.11 The evaluation committee will determine whether the Financial Proposals are complete (i.e., whether they have costed all items of the corresponding Technical Proposals; if not, the Procuring Entity will cost them and add their cost to the initial price), correct any computational errors, and determine if the total price is within the maximum budget available. The evaluation shall exclude those taxes, duties, fees, levies, and other charges imposed under the applicable law; and to be applied to foreign and non-permanent resident Bidders (and to be paid under the contract, unless the Bidder is exempted) and estimated as per para. 3.7. Should the Financial Proposal, after applying any correction or adjustments, exceeds the available budget for the assignment indicated at paragraph 3.9, this shall be automatically disqualified.

- 5.12 Once corrections or adjustments have been applied, the Financial Proposal shall be adjusted with the Regional Preference. This implies that a bid offering fifty percent (50) % or more expertise (experts) from the SADC Region will be discounted, for the purpose of evaluation only, with fifteen percent (15%).

For the purpose of calculation of the of the percentage of regional expertise, the basis shall be the total number of key staff days allocated to regional experts in the overall allocation of key staff resources proposed by the bidder.

- 5.13 The lowest Financial Proposal (Fm) will be given a financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the Data Sheet. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; $T + P = 1$) indicated in **the Data Sheet**: $S = St \times T\% + Sf \times P\%$. The firm achieving the highest combined technical and financial score will be awarded the contract.

6. Negotiations of Contract

- 6.1 The Client, prior to award the contract, may enter into negotiation with the successful bidder in order to confirm the availability of proposed Professional staff, incorporation in the methodology of the aspects for which clarifications were requested during the evaluation and the modification of the schedule of mobilization of the team and submission of deliverables under the contract.
- 6.2 No negotiation on the: (i) composition of the proposed professional staff team, (ii) individual or overall professional staff inputs, (iii) unit or total price, and/or (iv) proposed methodology is allowed.
- 6.3 As far as possible, the negotiation shall be conducted in writing. Only in exceptional circumstances, the Client and the successful bidder shall meet for negotiations. In such case the meeting shall take place at the address indicated in the **Bid Data Sheet**.
- 6.4 Having selected the Consultant on the basis of, among other things, an evaluation of the proposed Professional staff, the Client will require assurances that the Professional staff will be actually available. The Client will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that Professional staff were offered in the proposal without confirming their availability, the Consultant may be

disqualified. Any proposed substitute shall have equivalent or better qualifications and experience than the original candidate and be submitted by the Consultant within the period of time specified in the letter of invitation to negotiate.

6.5 The negotiations shall be recorded in a minute of the negotiations and be attached as annex to the contract.

7. Award of Contract

7.1 The Bidder who submitted a technical and financial responsive proposal and received the highest combined score, calculated as per formula given in para 5.13 and the Data Sheet, will be awarded the contract.

7.2 After the approval of the Evaluation Report, the Procuring Entity will promptly notify both the successful and the unsuccessful bidders about the outcome of the evaluation of the bids.

7.3 In the case of the successful bidder, following the notification of award, the validity of its offer shall be automatically extended by sixty (60) days.

7.4 No later than thirty (30) days from that date of notification of the recommendation for the award of the contract, the Procuring Entity shall submit to the applicant the contract for the consulting services. The successful bidder shall be given fifteen (15) days to sign the contract to the Procuring Entity. If it fails to do so, the Procuring Entity may consider cancelling the award of the contract.

7.5 The Contractor is expected to commence the assignment on the date and at the location specified in **the Data Sheet**.

8. Confidentiality

8.1 Information relating to evaluation of proposals and recommendations concerning awards shall not be disclosed to the Bidders who submitted the proposals or to other persons not officially concerned with the process, until the winning firm has been notified that it has been awarded the contract.

9. Appeals

9.1 Short listed Bidders may appeal any of the Procuring Entity's decision taken during the evaluation process by following the procedures described in the SADC Secretariat Guidelines at the article specified in **the Data Sheet**.

6. TERMS OF REFERENCE

TERMS OF REFERENCE FOR THE PROCUREMENT & IMPLEMENTATION OF AN ELECTRONIC DOCUMENT MANAGEMENT SYSTEM TO ENSURE EFFICIENT AND EFFECTIVE RECORDS MANAGEMENT

1. Background Information

1.1 Procuring Entity

The Ministry of Commerce, Industry and Trade

1.2 Name of End Beneficiary

Eswatini Competition Commission

1.3 Assignment Location

The Kingdom of Eswatini

1.4 Background

The Eswatini Competition Commission (Commission) is a public enterprise under the Ministry of Commerce, Industry and Trade mandated by the Competition Act of 2007 and the Fair Trading Act of 2001 as the national competition and consumer protection agency. The Commission's Secretariat is responsible for conducting investigations relating to competition law violations and consumer protection matters whilst the Board of Commissioners (Board) adjudicates these cases. Externally, the High Court serves as the appellate court and in instances of criminal enforcement the Office of the Director of Public Prosecution prosecutes.

Competition Commission's effectiveness in enforcing competition law suffers from institutional constraints. its operations are based on 'manual data management' while other jurisdictions in the sub-region (COMESA, SACU and SADC) and beyond have migrated to 'electronic data management filing system'. Therefore, to enhance effectiveness, the Competition Commission through this project has prioritized the installation of an electronic document management system which will include amongst others case management, filing system, payroll and human resource system/ solutions.

The envisioned electronic document management system (EDMS) will support the full automation of the workflow systems of the Commission. This will entail systems efficient and effective workflow throughout all departments namely Administrative, Human Resource and Technical work departments. Thus, the system will contain the appropriate software systems to facilitate this work flow.

Therefore, to enhance effectiveness, the Competition Commission through this project has prioritized the recruitment of ‘an electronic document management system expert and a digital Human Resources Solution Expert to both develop and install organization operational systems (e.g. quality management system, performance management system, case management system, payroll, etc) and train the relevant officers on how to utilize the systems optimally’.

As the Kingdom of Eswatini’s competition legislation provides for both criminal and administrative enforcement, access to an efficient, secure and reliable case and document management system by the different stakeholders involved at the various stages of investigating and adjudication is an imperative.

In its endeavor to enhance the agency’s effectiveness and efficiency, in 2014 the Commission introduced a Case Management System (CMS) to support an efficient integrated delivery of case-oriented outputs by increasing case management process workflow. During the first phase of the project a feasibility study was conducted which revealed gaps in the IT infrastructure and equipment to enable the CMS to operate optimally. As it is a web-based system it transpired that there is a need for a server with a larger memory capacity, as well as the need to upgrade the Commission’s hardware, software and website which is currently static and html based and therefore limits interconnectivity with the CMS. Due to the inadequacy of the Commission’s IT infrastructure, as an interim measure the consultant (ERDC) that installed the CMS hosts it on their web-hosting platform in Germany.

The CMS is designed to track, manage and preserve case and non-case documents whilst enabling information sharing among authorized users (internal/external); most importantly the system enhances the security of the Commission’s documents by preventing unauthorized access to and misuse of confidential and/or sensitive information.

2. Objectives, purpose and expected results

2.1 Overall objective

The Eswatini Competition Commission's overall objective under this TRF project is to automate to the extent possible the working systems of the Commission's by enhancing the IT infrastructure and performance to address the growing number of cases and workflow whilst maintaining information security and efficient access.

2.2. Purpose

The purpose of this contract is to enhance operational effectiveness and efficiency of the Commission's case process workflow so as to reduce turnaround times and ensure consistency in approach and response in relation to the Commission's end to end processes.

2.3 Results to be achieved by the Contractor

The results of the project are as follows –

Result 1: Analyse the administration and human resource management, ITC infrastructure (hard and soft), and technical work flow process requirements and identify possible gaps. This will include IT capacity assessment that determines IT requirements to attain the Commission's strategic and operational aspirations. Such assessment should include clear specifications of both hardware and software required to achieve the end product (systems). The assessment should be presented in a report.

Result 2: Design of an electronic document management system and a digital Human Resources Solution, including procurement of server and related hardware and software to achieve the following:

- a) Enable the repatriation of the Commissions case management systems and if required upgrade the system to optimum operating standard to achieve the Commissions strategic goals.
- b) Tailor- made software / systems to optimize workflow processes in each department, namely, Administration, Human Resources and Technical Departments which include:
 - (i) Mergers and Acquisitions;
 - (ii) Cartels and Enforcement; and
 - (iii) Consumer Protection.

This will facilitate digitization as far as possible for all operations and work flows, thereby enabling easy access to the data systems for both remote and on-premise users.

Result 3: Repatriation of CMS and Implementation of electronic document management system aligned with CMS including training of Board and staff on use of system, disaster recovery plan and sustainability/maintenance plan.

Result 4: Provide detailed specifications of hardware requirements to fully functionalise the EDMS (Server, Computers and other ancillary hardware required to optimise the performance of the EDMS).

3. Scope of work

3.1 The scope of work includes but not limited to the following

The project shall have the purpose of enhancing the capabilities of the Commission and its key stakeholders, and will include the following-

- Conduct IT capacity assessment taking into account strategic and operational needs and requirements of the Commission and the Kingdom;
- Design and/or Incorporate internal document management workflow processes;
- Design and install an electronic document management system, including a digital human resources solution and procurement of a capable server and related hardware and software;
- Installation of a server with a rack and repatriation of the Case Management System from current location to the new server;
- Provision of specifications for an electronic document management system and a digital Human Resources Solution;
- Procurement and installation of the electronic document management system, including a digital human resources solution at the Commission;
- Provision of specifications of the related hardware (computers and ancillary hardware) and facilitate its procurement and installation to fully functionalize the EDMS;
- Development of the EDMS sustainability/maintenance plan and disaster recovery plan;
- Installation of a Board Pack software/application in all iPads of Commissioners including access to CMS; and

- Training of Board and Staff on use of equipment and systems.

4.1 Specific work

The deliverables under this project will include the following:

Result 1: Conduct IT capacity assessment to determine IT requirements to attain the Commission's strategic and operational aspirations outlined above and presented in a report with recommendations and costs.

- Establish the Commission's strategic and operational IT needs as well as resources and capabilities including appropriateness of internal data services.
- Determine the Commission's present performance, capabilities, and evaluate new technologies available on the market and their potential to support new strategic options.
- Produce a report of findings and recommendations with an action plan with costs and phases if necessary.

Result 2: Design of electronic document management system, including a digital human resources solution and procurement of a capable server and related hardware and software and allow the Commission to repatriate the CMS system and host it in-house so as to enhance document management and organizational efficiency.

- Develop specifications for a capable server and facilitate sourcing and installation to allow the Commission to repatriate the CMS and

- (b) Furthermore, if the Contractor, as part of the Services, has the responsibility of advising the Contracting Authority on the procurement of goods, works or services, the Contractor shall comply with the SADC Secretariat's applicable procurement guidelines, and shall at all times exercise such responsibility in the best interest of the Contracting Authority. Any other such adjustments shall only be made with the Contracting Authority's written approval.
- (c) If additional work is required beyond the scope of the Services specified in Appendix A, the estimated periods of engagement of Key Personnel set forth in Appendix B may be increased by agreement in writing between the Contracting Authority and the Contractor. - (a) Except as the Contracting Authority may otherwise agree, no changes shall be made in the Personnel. If, for any reason beyond the reasonable control of the Contractor, such as retirement, death, medical incapacity, among others, it becomes necessary to replace any of the Personnel, the Contractor shall forthwith provide as a replacement a person of equivalent or better qualifications.
- (b) If the Contracting Authority: (i) finds that any of the Personnel has committed serious misconduct or has been charged with having committed a criminal action, or (ii) has reasonable cause to be dissatisfied with the performance of any of the Personnel, then the Contractor shall, at the Contracting Authority's written request specifying the grounds therefore, forthwith provide as a replacement a person with qualifications and experience acceptable to the Contracting Authority.
- (c) Any of the Personnel provided as a replacement under Clauses (a) and (b) above, as well as any reimbursable expenditure the Contractors may wish to claim as a result of such replacement, shall be subject to the prior written approval by the Contracting Authority. The rate of remuneration applicable to a replacement person will be obtained by multiplying the rate of remuneration applicable to the replaced person by the ratio between the monthly salary to be effectively paid to the replacement person and the average salary effectively paid to the replaced person in the period of six months prior to the date of replacement. Except as the Contracting Authority may otherwise agree:, (i) the Contractor shall bear all additional travel and other costs arising out of or incidental to any removal and/or replacement, and (ii) the remuneration to be paid for any of the Personnel provided as a replacement shall not exceed the remuneration which would have been payable to the Personnel replaced.
