1. BACKGROUND INFORMATION

1.1 Partner country and procuring entity

Southern African Development Community (SADC)

1.2 Contracting authority

Southern African Development Community Secretariat (SADC Secretariat)

1.3 Background

The Southern African Development Community (SADC) is a Regional Economic Community comprising 16 Member States, namely; Angola, Botswana, Comoros, Democratic Republic of Congo, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, Swaziland, Tanzania, Zambia, Zimbabwe. Established in 1992, SADC is committed to Regional Integration and poverty eradication within Southern Africa through economic development and ensuring peace and security.

Article 14 of the SADC Treaty establishes the SADC Secretariat as the principal executive institution of SADC. The Secretariat performs its mandate and functions within the policy, strategic and programme provisions outlined in the Regional Indicative Strategic Development Plan (RISDP).

The Regional Infrastructure Development Master Plan (RIDMP), the SADC Regional Agricultural Policy (RAP), the Industrialisation Strategy and the Roadmap, among others, are complementary guiding frameworks for achieving the regional integration agenda. SADC has also developed various Protocols for domestication and implementation by Member States including the most recent one, the Protocol on Statistics to enhance harmonization of statistics. The operating framework for implementing statistical activities as priorities for the region is the Regional Strategy for Development of Statistics (RSDS) and is aligned to SADC Vision 2050 and RISDP 2020-30.

Demand for quality and harmonized statistics has been on the rise to monitor progress in developmental agendas at national, regional, continental and global level. The scope of data demand cuts across economic, social and also on emerging issues such as climate change, disaster-risk, environment and others related. National Accounts statistics are considered as benchmark statistics for measuring economic performance and productivity. These are important to measure all regional integration programmes of SADC, for instance, they are primarily used to measure performance of Pillar I of RISDP programmes on macroeconomic convergence, industrialization and agriculture.

1.4 Current situation in the Sector

The SADC Vision 2050 earmarks Statistics a priority cross-cutting sector whereby by 2050, the region strategic objective in statistics is to realize a robust and responsive regional statistical system to underpin regional integration processes, including measurement of progress and impact. The SADC RISDP 2020-30 draws impetus from the Vision 2050 and thereby identify key intervention areas to achieve the expected outcome of enhanced statistical infrastructure, systems, and capacity across the region for production and effective use of harmonized regional statistics. The key intervention areas include primarily the development and implementation of policy and legal frameworks for coordinating regional statistics and capacity across the entire data value chain of the regional statistical system strengthened.

The Regional Strategy for Development of Statistics (RSDS) 2020-30 is complementary sectoral strategy for achieving regional integration as embedded in RISDP 2020-30, for statistics sector. In line with the strategic objective, expected outcome, implementation plan and strategic outputs of Statistics as embedded in RISDP 2020-30, the 6 identified strategic intervention areas of RSDS 2020-30 priorities for implementation are as follows:

- (i) Policy frameworks for development of regional statistics;
- (ii) Institutional strengthening and sustainability of the SADC Regional Statistical System;
- (iii) Harmonization of regional statistics;
- (iv) Digital transformation of regional statistics;
- (v) Capacity for data production, management, dissemination and use;
- and
- (vi) Quality of regional statistics.

In addition to the policy frameworks related to statistical matters in the region, a legal framework in the form of the Protocol on Statistics has been developed and approved to enhance the level of statistical development both nationally and regionally, facilitating the pursuit of monitoring and measuring progress of development agendas at national, regional, continental and global level. The Protocol is conceived as a binding instrument that will entrench and give legal effect to the statistical functions in the SADC region and is expected to give legal mandate to the SADC Secretariat to co-ordinate and provide oversight to the implementation of SADC Regional Statistical System.

At statutory level, the SADC Statistics Committee, comprising of Head of Statistics in the SADC Member States provides policy, strategic and professional guidance for the statistical development and integration processes in the region. The Committee

meets at least once a year and monitor progress in the SADC Statistics Program and oversee the implementation of statistical development. The Statistics Unit of Secretariat primary function is to co-ordinate and rationalize all regional statistical activities in line with continental and international statistical frameworks and provides technical and secretarial support to the Statistics Committee. The Committee reports directly to the SADC Council of Ministers.

Secretariat is prioritizing statistical capacity building as part of its implementation plan guided by the RSDS 2020-30. Capacity building shall basically come in the form of: development of practical guidelines in specific domains; rolling out national and regional training programmes and; assisting Member States through technical assistance. These activities are deemed essential to achieve harmonization of statistics with adherence to international manuals and the practical guidelines to be developed. In addition, the conduct of reviews in real sector statistics is a strategic focus area of the SADC RSDS. Secretariat is now embarking on undertaking reviews on methodological soundness of practices in national accounts statistics up to Milestone 2 of SNA 2008 and Supply – Use Tables (SUTs) in Member States. During 2022, Secretariat developed a practical methodological guidelines on national accounts statistics for use to speed up implementation of latest methodology in the area (SNA 2008) to measure progress in regional policies on macroeconomic convergence and industrialization in the region. The SADC Statistics Committee Meeting, 30 May – 01 June 2023, approved the document and requested Secretariat to conduct reviews in Member States using the provisions of the manual. Within this context, Secretariat has planned a review mission in Mozambique during this current financial year to assess methodological soundness of national accounts statistics.
