## 1. Introduction

- 1.1 The Procuring Entity named in **the Data Sheet** will select a firm/eligible institution among those listed in the Letter of Invitation, in accordance with the procurement method indicated in **the Data Sheet**, method detailed in the edition of the Guidelines indicated in **the Data Sheet**.
- 1.2 The shortlisted Bidders are invited to submit a Technical Proposal and a Financial Proposal for global price services required for the assignment named in **the Data Sheet** and presented in details in the Terms of Reference attached as Section 5 of this Bidding Documents. The proposal and the Terms of Reference will be the basis for contract for a signed contract with the successful firm.
- 1.3 The assignment shall be implemented in accordance with the phasing indicated in **the Data Sheet**. When the assignment includes several phases, the performance of the Bidder under each phase must be to the Procuring Entity's satisfaction before work begins on the next phase.
- 1.4 The Bidders must familiarize themselves with local conditions and take them into account in preparing their proposals. To obtain first-hand information on the assignment and on the local conditions, Bidders are encouraged to request the Procuring Entity to provide further information before submitting a proposal and to attend a pre-bid conference if one is specified in **the Data Sheet**. Attending the pre-proposal conference is optional. The Bidders' representative should contact the Procuring Entity at the address stated in **the Data Sheet** or to obtain additional information on the pre-bid conference.
- 1.5 The Procuring Entity will provide the inputs specified in **the Data Sheet**, assist the firm in obtaining licenses and permits needed to carry out the services, and make available relevant project data and reports.
- 1.6 Please note that (i) the costs of preparing the proposal, including a visit to the Procuring Entity, are not reimbursable as a direct cost of the assignment; and (ii) the Procuring Entity is not bound to accept any of the proposals submitted.
- 1.7 SADC Secretariat policy requires that Bidders provide professional, objective, and impartial advice and at all times hold the Procuring Entity's interests paramount, without any

consideration for future work, and strictly avoid conflicts with other assignments or their own corporate interests. The evaluation shall exclude those taxes, duties, fees, levies, and other charges imposed under the applicable law; and to be applied to foreign and non-permanent resident Bidders (and to be paid under the contract, unless the Bidder is exempted), and estimated as per paragraph 3.7. **Should the Financial Proposal, after applying any correction or adjustments, exceeds the available budget for the assignment indicated at paragraph 3.9, this shall be automatically disqualified.**

## 1. BACKGROUND INFORMATION

### 1.1. PARTNER COUNTRY AND PROCURING ENTITY

Southern African Development Community (SADC)

### 1.2. CONTRACTING AUTHORITY

Southern African Development Community Secretariat (SADC Secretariat)

### 1.3. COUNTRY BACKGROUND

The Southern African Development Community (SADC) is a Regional Economic Community comprising 16 Member States, namely, Angola, Botswana, Comoros, Democratic Republic of Congo, Eswatini, Lesotho, Madagascar, Malawi, Mauritius, Mozambique, Namibia, Seychelles, South Africa, Tanzania, Zambia, Zimbabwe. Established in 1992, SADC is committed to Regional Integration and poverty eradication within Southern Africa through economic development and ensuring peace and security.

The SADC Region has put in place the Regional Indicative Strategy Development Plan (RISDP) Implementation Plan 2020-2030 which outlines the DRM strategic objectives that are in line with the Sendai Framework for DRR and the Africa Strategy for DRR and extended Programme of Action (PoA), Sustainable Development Goals (SDGs) and the Africa Union Agenda 63 as well as the Paris Agreement and key aspects of the Glasgow Pact on Climate Change. The region recently developed the SADC Disaster Risk Management Strategy and Action Plan 2022-2030 which has enlisted '*Strategic Priority 4: Disaster Risk, Innovation, Technology and Knowledge Management*'. Therefore, the regional DRM approach at their core is advanced by the effective information management for increased DRR knowledge.

In June 2015, Ministers responsible for Disaster Risk Management and Ministers of Finance and Investment recommended to the Ministerial Committee of the Organ (MCO) the establishment of a statutory MCO Standing Sub-committee on Disaster Risk Management and made recommendations to Council for approval; and, for the Ministerial Standing Sub-committee of DRM to be a statutory Committee for the MCO. The Terms of Reference (TORs) for the Sub-committee include amongst others the provision of "a platform for exchange of information, best practices and lessons learnt, as well as peer review on DRM issues".

Endorsing the June 2015 decision and in line with the TORs for the Sub-committee, the Ministers responsible for DRM in their meeting in Zanzibar, United Republic of Tanzania in February 2020 emphasized on the need for alignment of the regional disaster risk reduction policy and strategic framework with the Sendai Framework for Disaster Risk Reduction (SFDRR). [...]

In 2020/2021, with support from the World Bank (WB) the Secretariat's DRR Unit developed the Regional DRM Policy and Advocacy Programme 2020-2030 to facilitate the implementation of the DRM Peer Review Mechanism (PRM). The Programme was approved by the Ministers responsible for DRM in their Meeting in May 2021 and is currently under implementation guided by the Terms of Reference approved by Ministers during the same meeting. Two Member States, the Republic of Malawi and the Republic of

Namibia have undertaken the peer reviews coordinated by the Secretariat, with the Governments of Madagascar, South Africa, and Zambia serving as reviewing peers.

In their meeting in July 2022 the Ministers responsible for DRM noted that the peer review reports for Malawi and Namibia have critical information that should be shared with all the Member States. Therefore, the Ministers took a decision directing the Secretariat to, “*urge Member States to volunteer to participate in the next cycle of the Regional Disaster Risk Management Policy Programme Peer Reviews*”. During the same meeting the United Republic of Tanzania and Republic of Zambia volunteered to be peer reviewed in the next cycle.

#### 1.4. CURRENT SITUATION IN THE SECTOR

Disaster risks and associated impacts are increasing both in frequency and magnitude, globally and in the SADC region. The SADC Secretariat Disaster Risk Reduction Unit (DRR Unit) coordinates the disaster risk management (DRM) agenda by ensuring the translation of global and regional disaster risk reduction (DRR) instruments into actions that can prevent losses and damage to vulnerable people’s livelihoods and lives in the region. The Regional Economic Communities’ (RECs) risk rating under the INFORM Index<sup>10</sup> has increased from 4.4 in 2020 to 5.7 in 2022, indicating aggravated vulnerability amongst people most at risk, deteriorating coping capacities and augmented exposure to disaster risks.

The currently forecasted El Nino phenomenon is likely to have regative impact in the region. Together with climate change, the effects of either El Nino and La Nina have resulted in increased number droughts and cyclonic systems in the South West Indian Ocean that affect the region. In the 2021/2022 Rainfall Season, the SADC region has experienced six (6) tropical cyclones and storms. The region was first hit by the Moderate Tropical Storm Ana, that made landfall in Madagascar, then Mozambique, and moved on to Malawi and Zimbabwe, affecting over 185,000 people. Tropical depression Dumako, quickly followed, and affected about 23,733 people in Mozambique. Intense Tropical Cyclone Batsirai thereafter made landfall in central and southern Madagascar in February 2022 affecting 116,000 people and claiming over 90 lives. Tropical Cyclone Emnati, made landfall in Madagascar with mild impacts and in March 2022, Severe Tropical Cyclone Gombe made landfall over the coastal area of central Nampula Province in Mozambique affecting over 100,000 people and killing about 15.

In addition, a low pressure system that oscillated in the region causing thunder storms, and damaging winds that brought along heavy rainfall. The Republic of South Arica recorded the highest rainfall ever in the last 60 years, with a major part of the KwaZulu-Natal Province (KZN) receiving over 400 mm of rainfall over a period of 24 hours, bringing about destructive flash flooding that caused colossal damage to infrastructure and led to loss of life. A total of 123,808 people were affected by the floods in KZN, South Africa with 6,342 people displaced, 435 people reported dead and 52 people missing. Initial estimates indicated that nearly 5,672 homes were destroyed and over 9,581 homes have been partially

damaged. About 551 structures from the various organs of State were also destroyed, including schools, government offices and hospitals, as well as the Port of Durban, which serves the whole SADC Region.

In 2022/23 Rainfall Season two Tropical Cyclones, Cheneso and Freddy have made landfall in the region. The later brought intense rainfall and winds leading to colossal destruction in several countries in particular Malawi where a record of over 1,000 people were reported dead.

Within the past decade, the region has experienced varying impacts across sectors emanating from disasters including the 2015/2016 El-Nino-induced drought, which resulted in the declaration of a regional disaster and establishment of an El Nino Response Coordination Mechanism. The worst torrential rains and flooding from Tropical Cyclones Idai, Kenneth in 2018/2019 that affected three Member States Malawi, Mozambique and Zimbabwe, wild-fires, 2020/2022 migratory locusts that affected 9 Member States, earth tremors/quakes, and disease outbreaks and epidemics such as malaria, cholera, EBOLA etc. These risks and hazards are escalating in terms of scale and impact and occur simultaneously and across borders.

### **1.5. RELATED PROGRAMMES AND OTHER DONOR ACTIVITIES**

The Regional Indicative Strategic Development Plan (RISDP) Implementation Plan 2020-2030, a blueprint for building regional integration is premised on the acceleration of regional integration through sustained industrialization development. Industrialization is expected to bring economic and technological transformation aimed at improving the quality of life of the people in the region, robust economic growth, employment creation, gender equality, sustainable food security and sustainable natural resources management amongst other pre-requisites. The regional DRR aspirations are articulated in the RISDP 2020-2030 strategic objectives as a cross-cutting undertaking.

The German Government is funding the SADC Adaptation to Climate Change in Rural Areas in southern Africa (ACCRA) that is implemented by the Coordination Centre for Agriculture Research in Southern Africa (CCARDESA). The programme supports the implementation of climate-relevant elements of the RAP and strengthens the capacity of CCARDESA to act as a knowledge broker, coordinator and moderator for agricultural research and development. Furthermore, the German Government is supporting a Project on DRM through the Global Initiative for Disaster Risk Management III 2021-2023 (GIDRM III)<sup>11</sup>. The project aims to increase the capacities of the SADC region to successfully address future uncertainties by mainstreaming the risk-informed development planning paradigm into key sectors. This intervention will be closely undertaken with these projects to promote synergies, avoid duplication and leverage value for money.

Coordination of SADC programmes with ICPs is conducted through the Thematic Groups and the SADC-ICP Dialogue Platform, and for the DRM Sector it is with the Climate Change, Meteorology and Disaster Risk Reduction Thematic Group. The Thematic Group meets annually, and is open to all potential partners with interest in environment, meteorology, climate change and DRR issues including international and regional
